Citrix App Layering and WEM Administration

CODE:	LENGTH:	PRICE:
CTX_CWS-314	16 Hours (2 days)	€1,395.00

Description

Designed for experienced IT professionals, you will learn to build and combine App Layers to optimize management of your app and desktop images and to implement Workspace Environment Management to improve log-on times, centralize user settings management, and optimize the performance of machines.
You will leave this course with a good understanding of how to manage more complex solutions and features in your Citrix Virtual Apps and Desktop 7 site.

Objectives

- How to configure Workspace Environment Management to improve the end user environment and virtual resource consumption.
- How to migrate to Workspace Environment Management
- App Layering skills to create and administer OS, platform, application, elastic and user layers

Audience

Built for experienced IT Professionals familiar with Citrix Virtual Apps and Desktops 7 in an on-premises environment or Citrix Cloud looking to expand their Citrix Virtual Apps and Desktops skills to an advanced level.
Potential students include administrators or engineers responsible for the Citrix Apps and Desktop 7 Site.

Prerequisites

Strong foundational knowledge of Citrix Virtual Apps and Desktops 7.
Citrix recommends students prepare for this course by taking the following course:

- CWS-215-Citrix Virtual Apps and Desktops 7 Administration On-Premises and in Citrix Cloud

Programme

Module 1 Introduction to App Layering

- App Layering Introduction
- Architecture and How it Works

Module 2 The OS Layer

- Creating an OS Layer

Module 3 The Platform Layer

- Creating a Platform Layer

Module 4 The App Layers

- Creating App Layers

Module 5 Creating Elastic App and User Layers

- Elastic App Layering
- User Layers

Module 6 Deploying a Layered Image using Citrix Virtual Apps and Desktops

- Using Templates in App Layering
- Using Layered Images in a Citrix Virtual Apps and Desktops Site

Module 7 Exploring Layer Priority

- Layer Priority

Module 8 Maintaining an App Layering Environment

- Updating Layers
- Maintaining and Updating the App Layering Environment
- Common App Layering Considerations and Additional Resources

Module 9 Introduction to Workspace Environment Management (WEM)

- Workspace Environment Management (WEM) Introduction
- WEM Administration

Module 10 Using WEM to Centralize Environment Management

- Managing User Resources with WEM
- Managing Profiles with WEM
- Managing Endpoints with the WEM Transformer Feature

Module 11 Using WEM for Performance Optimization

- Optimizing Machine Performance with WEM
- Optimizing User Experience with WEM

Module 12 Using WEM to Secure Environments

- WEM Security Features

Module 13 Migrating and Upgrading WEM

- Migrating to WEM
- Upgrading a WEM Deployment
- WEM Multi-Location Considerations
