Core DDI Configuration & Administration (CDCA) Super Course

CÓDIGO:	DURACIÓN:	Precio:
INB_CDCA	40 Hours (5 días)	A consultar

Description

Build an in-depth working knowledge of how to configure and manage Infoblox appliances and the Infoblox Grid. Learn how to configure and manage the DNS and DHCP protocols, including: forward and reverse mapping DNS zones, DNS views; DHCP networks, custom options, ranges and fixed addresses; and visually manage the IP space using IPAM. Perform Grid management, including, system and protocol level monitoring, remote authentication, NIOS upgrades. Implement advanced NIOS features, including, Dynamic DNS with TSIG and GSS-TSIG, DNSSEC zone signing and validation, DNS Anycast, and DHCP failover.

Objetivos

Accreditation
Core DDI Configuration & Administration accreditation exam (on-line, open-book)

Público

This is a comprehensive course for team members responsible for implementation, administration, operations, or maintenance of the Infoblox Core DDI product.

Requisitos Previos

This is a comprehensive course for team members responsible for implementation, administration, operations, or maintenance of the Infoblox Core DDI product.

Programa

Day 1
• The Infoblox Grid
• Setting Up the Grid
• Grid Manager
• Managing Grid Members
• High Availability
Day 2
• DHCP Service
• DHCP Networks
• DHCP Objects
• Extensible Attributes
• User Accounts
• Scheduled Tasks
Day 3
• DNS Service
• DNS Zones
• DNS Resource Records
• IPAM
• CSV Export and Import
Day 4
• Remote Authentication
• DNS Anycast
• DNSSEC

• NIOS Upgrades
• DNS and Network Views

Day 5

• Advanced DHCP Options
• DHCP Failover
• Dynamic DNS
• TSIG and GSS TSIG
• Reporting and Analytics

Fechas Programadas

A petición. Gracias por contactarnos.
