Fundamentals of the IBM Cúram SPM Platform for Business Analysts 6.0.5

CODE:	LENGTH:	PRICE:
9D47G	40 Hours (5 days)	kr39,425.00

Description

This course provides a thorough grounding in the fundamentals of the IBM Cúram Social Program Management (SPM) Platform. It presents a business analyst and caseworker overview that introduces the key components of IBM Cúram SPM, namely, SPM Platform User Interface, Participant Management, Case Management, Evidence Framework, Financial Management, System Administration, Verification Engine, Evidence Broker, Provider Management, Outcome Management, Rules Management, Workflow Management, and Universal Access.
The course explains out-of-the-box IBM Cúram SPM functionality and outlines the recommended approach to reusing the IBM Cúram SPM Platform reference application.
If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.
