Trend Micro Apex One SaaS Training for Certified Professionals – Update course

CODE:	LENGTH:	PRICE:
TRM_APEX-ONE-SAAS-UC	8 Hours (1 day)	kr11,500.00

Description

This is a one-day, instructor-led training course aimed at participants who have already previously followed a full 3 days training in the past of Apex One (On prem), and who still hold a valid Certified professional certification (valid 2 years). This one-day update training covers all differences between on-prem and SaaS, with any new features available in the SaaS version of Apex One product and in the training material. This course is based on the latest Apex One SaaS Training material
Through hands-on labs, participants practice configuring Trend Micro Apex One™ protection features along with the administration options needed for a successful deployment.
This course is taught by Trend Micro-certified trainers.

Audience

This course is designed for and only available to IT professionals who have already been certified on Apex One (on-prem) within the last 2 years

Programme

The course topics in this 1 day training are divided into the following lessons:
