Check Point Certified Endpoint Specialist (CCES) R81.20

Kód:	**DÉLKA:**	**CENA:**
CKT_CCES_R81.X	16 Hours (2 DENNÍ)	Kč bez DPH 25,500.00

Description

Tento dvoudenní kurz pro specialisty poskytuje komplexní znalosti o řešení Check Point Endpoint Security a jeho nasazení ve firemním síťovém prostředí.
Naučte se základní koncepty a rozvíjejte dovednosti potřebné pro správu řešení Harmony Endpoint Security.

Cíle

• Understand the emergence of increasingly more sophisticated cyberattacks and the need to protect endpoints.
• Explain the advantages of Harmony Endpoint as a security solution.
• Become familiar with the growing Endpoint Security Market.
• Describe the key elements of the Harmony Endpoint Architecture.
• Describe the Harmony Endpoint Management Environment.
• Understand Check Point's Infinity Portal.
• Explain the new Harmony Endpoint Web Management Service.
• Identify main features of the Harmony Endpoint Management console.
• Explain how to create and assign security policies for Endpoint clients using endpoint security.
• Understand deployment methods and server considerations for Endpoint Security Management installation.
• Identify the different ways to install and configure Endpoint clients.
• Understand how Endpoint Security authenticates and verifies clients connecting to the Endpoint Security Management Server.
• Describe additional server configurations that are available to help manage Endpoint clients.
• Recognize the different types of data security available to deploy on end user machines.
• Describe how Full Disk Encryption technology protects and recovers data accessed and stored on Endpoint computers.
• Understand how to secure removable media devices.
• Understand how Harmony Endpoint is defending company networks against sophisticated attacks.
• Describe Check Point Harmony Endpoint Agent.
• Explain how Harmony Endpoint Agent's advanced technologies are preventing attacks from infiltrating Endpoint machines and corporate resources.
• Become familiar with Harmony Endpoint troubleshooting methods.
• Understand how to troubleshoot and debug issues that may occur in the Endpoint Security environment.

Vstupní znalosti

Working knowledge of Windows, UNIX, networking technology, the Internet and TCP/IP.security solutions.

Program

Data Protection
Zero-Day Detection
Behavioral Guard
Deployment
Anti-Malware
Anti-Bot
Automatic Remediation
Threat Emulation
Threat Extraction
Forensics
Port Protection
Cloud-Based

Threat Detection
Anti-Exploit
Anti-Ransomware
Remote Access VPN
APTs
• Activate the Harmony Endpoint manager in the Cloud.
• Configure Active Directory.
• Connect Active Directory to the Cloud management server.
• Install Initial Agent on the Domain Controller.
• Demonstrate how to deploy the Harmony Endpoint Agent on a client.
• Configure the policy operation mode.
• Create exception rules for specific removable media devices.
• Deploy and configure Anti-Bot and URL Filtering on an Endpoint client.
• Configure and deploy Full Disk Encryption on a client.
• Test Anti-Bot behavioral engine.
• Configure and deploy Media Encryption.
• Block access to certain websites for specific user groups.
• Configure and deploy Port Protection on an Endpoint client.
• Perform threat emulation and extraction of malicious content.
• Learn how to extract malicious content from a document.
