Veritas Enterprise Vault 12.x: Administration I

Kód:	DÉLKA:	CENA:
VER_EV-12.x A	40 Hours (5 DENNÍ)	Kč bez DPH 85,600.00

Description

Školení je vedené virtuálně v angličtině.

The Veritas Enterprise Vault 12.x: Administration I course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within a Microsoft Exchange environment. This five-day, instructor-led, hands-on class covers Enterprise Vault's functionality, operations and features. Additional topics include using reports, basic management, and an overview of Enterprise Vault backup and restore requirements. After you complete this course, you will know how to, manage, monitor, and maintain Enterprise Vault.

Cíle

- Introduction to Administering Enterprise Vault
- Maintaining Exchange Targets and Tasks
- Managing Mailbox Archiving
- Managing Enterprise Vault Client Settings
- Managing Client Access - Outlook
- Managing Client Access - Vault Cache and Virtual Vault
- Managing Client Access - Office Mail App and OWA
- Maintaining Journal Archiving
- Migrating PST Files - Introduction
- Migrating PST Files - Performing Migrations
- Maintaining the Enterprise Vault Environment
- Maintaining Enterprise Vault Storage I
- Maintaining Enterprise Vault Storage II
- Managing Storage Retention and Deletion
- Managing Indexes
- Managing Retention & Classification
- Managing Enterprise Vault Search
- Maintaining Monitoring and Reporting
- Disaster Recovery Overview

Určeno pro

This course is for system administrators, system engineers, technical support personnel, and system integration/development staff who are responsible for installing, operating, or integrating Enterprise Vault within their Exchange environment.

Vstupní znalosti

You must have a working knowledge of Microsoft Windows Server 2012 with some system administration experience. Basic familiarity with Exchange/Outlook is sufficient, while an understanding of Microsoft SQL Server, Exchange, and Active Directory as a power user or administrator is useful. An optional prerequisite is taking the Veritas Enterprise Vault 12.x: Implementation and Deployment class. This 4-day course covers the topics of installing, upgrading and migrating for Enterprise Vault 12.x implementations. Veritas Enterprise Vault 11.x: Implementation and Deployment can be substituted for the 12.x version.

Program

Lesson 1: Introduction to Administering Enterprise Vault	Lesson 2: Maintaining Exchange Targets and Tasks
· Enterprise Vault: Overview	· Exchange targets and tasks: Overview
· Administering Enterprise Vault: Overview	· Adding Exchange targets
Lesson 3: Managing Mailbox Archiving	· Maintaining and monitoring required tasks
· Determining what is archived from targets	· Archiving from an Exchange DAG
· Applying archiving options to mailboxes	Lesson 4: Managing Enterprise Vault Client Settings
	· Managing client settings
Lesson 5: Managing Client Access – Outlook	· Adding new users to the Enterprise Vault environment
· Accessing Enterprise Vault archived items: Overview	Lesson 6: Managing Client Access – Vault Cache and Virtual Vault
· Supporting Exchange client access: Outlook	· Vault Cache and Virtual Vault: Overview
Lesson 7: Managing Client Access – Office Mail App and OWA	· Supporting Exchange client access: Vault Cache
· Accessing Enterprise Vault archived items: Overview	· Supporting Exchange client access: Virtual Vault
· Supporting Exchange client access: Office Mail App	
· (Optional) Supporting Exchange client access: Outlook Web App (OWA)	
Lesson 8: Maintaining Journal Archiving	Lesson 9: Migrating PST Files – Introduction
· Journal archiving overview	· PST migration: Overview
· Monitoring journal archiving	· Using PST migration tools
· Managing journal archiving	· Configuring PST settings
Lesson 10: Migrating PST Files – Performing Migrations	Lesson 11: Maintaining the Enterprise Vault Environment
· Migrating with client-driven PST migration	· Monitoring and maintaining the Enterprise Vault server
· Migrating with server-driven PST migration	· Maintaining database resources
Lesson 12: Maintaining Enterprise Vault Storage I	· Updating the environment
· Archive storage overview	
· Determining current storage state and usage	Lesson 13: Maintaining Enterprise Vault Storage II
· Expanding the storage configuration	· Maintaining storage locations
	· Modifying storage
Lesson 14: Managing Storage Retention and Deletion	Lesson 15: Managing Indexes
· Managing storage retention and expiry	· Index overview
· Configuring collection and migration overview	· Monitoring Indexes
	· Maintaining Indexes
