IBM TechU LinuxONE

Kód:	**DÉLKA:**	**CENA:**
TU00022G	7.04 Hours	Kč bez DPH 5,060.00

Description

This Learning Path covers a variety of topics related to Linux on IBM Z and LinuxONE, such as architecture, virtualization/containerization options, advantages on consolidation, among many other areas, including the integration into Hybrid Cloud solutions.

Cíle

- Be familiar with why servers based on the IBM Z architecture are a compelling option to run enterprise grade workloads reliably, fast, securely.
- Understand the business value, savings (total cost of ownership - TCO), and sustainability of the Linux on IBM Z architecture based servers
- Get to know how to exploit the latest features in Linux on IBM Z architecture based servers
- Understand how to exploit best virtualization and High Density computing (HDC) on IBM Z architecture based servers.
- Understand the IBM Z architecture based servers cloud capabilities and how effective Red Hat Openshift can help to build and manage containerized solutions

Určeno pro

Clients and Business Partners - Architects, Systems Administrators, Systems Developers, IT Infrastructure leaders interested in learning more about LinuxONE.

Program
