Site Reliability Engineering (SRE) Foundation

Kód: **DÉLKA:**   **CENA:**

DOI_SRE   16 Hours (2 DENNÍ)   Kč bez DPH 45,050.00

Description

Školení je vedeno virtuálně v anglickém jazyce.
Cena školení je 1 495 GBP bez DPH - tato cena bude při fakturaci přepočtena aktuálním kurzem.

The SRE (Site Reliability Engineering) Foundation℠ course is an introduction to the principles & practices that enable an organization to reliably and economically scale critical services. Introducing a site-reliability dimension requires organizational re-alignment, a new focus on engineering & automation, and the adoption of a range of new working paradigms.

The course highlights the evolution of SRE and its future direction, and equips participants with the practices, methods, and tools to engage people across the organization involved in reliability and stability evidenced through the use of real-life scenarios and case stories. Upon completion of the course, participants will have tangible takeaways to leverage when back in the office such as understanding, setting and tracking Service Level Objectives (SLO's).

The course was developed by leveraging key SRE sources, engaging with thought-leaders in the SRE space and working with organizations embracing SRE to extract real-life best practices and has been designed to teach the key principles & practices necessary for starting SRE adoption. This course positions learners to successfully complete the SRE Foundation certification exam.

Určeno pro

The target audience for the SRE Foundation course are professionals including:
● Anyone starting or leading a move towards increased reliability
● Anyone interested in modern IT leadership and organizational change approaches
● Business Managers / Business Stakeholders / Change Agents / Consultants
● DevOps Practitioners
● IT Directors / IT Managers / IT Team Leaders
● Product Owners / Scrum Masters
● Software Engineers / Site Reliability Engineers
● System Integrators / Tool Providers

Program

Sixteen (16) hours of instructor-led training and exercise facilitation
Learner Manual (excellent post-class reference) including:
     Course slideware
     Value Added Resources
     Glossary
Participation in exercises and discussions designed to apply concepts
Case stories
Access to additional sources of information and communities
