Description

Školení je vedeno virtuálně v anglickém jazyce.

Cena školení je 380 EUR bez DPH - tato cena bude při fakturaci přepočtena aktuálním kurzem.

This one-day course teaches you how to use the VMware Carbon Black® App Control™ product and leverage the capabilities to configure and maintain the system according to their organization's security posture and organizational policies. This course provides an in-depth, technical understanding of the Carbon Black App Control product through comprehensive coursework and hands-on scenario-based labs.

Cíle

By the end of the course, you should be able to meet the following objectives:

- Describe the components and capabilities of application control
- Manage and configure the Carbon Black App Control server based on organizational requirements
- Create policies to control enforcement levels and agent functionality
- Implement rules to support the organization's security posture
- Use the Carbon Black App Control tools to understand agent and server data

Určeno pro

System administrators, security operations personnel including analyst and managers.

Vstupní znalosti

There are no prerequisites for this course.
