Firewall 8.1: Troubleshooting

Kód:	DÉLKA:	CENA:
PAN_EDU-330	24 Hours (3 DENNÍ)	Kč bez DPH 37,000.00

Description

The Palo Alto Networks Firewall 9.0: Troubleshooting course is three days of instructor-led training that will help you:
Investigate networking issues using firewall tools including the CLI
Follow proven troubleshooting methodologies specific to individual features
Analyze advanced logs to resolve various real-life scenarios
Solve advanced, scenario-based challenges
Toto školení pořádá školicí středisko TD SYNNEX Academy

Cíle

Successful completion of this three-day, instructor-led course should enhance the participant's understanding of how to troubleshoot the full line of Palo Alto Networks nextgeneration firewalls. Participants will have opportunities to perform hands-on troubleshooting of common problems related to the configuration and operation of the features of the Palo Alto Networks PAN-OS® operating system. Completion of this class will help participants develop an indepth knowledge of how to troubleshoot visibility and control over applications, users, and content.

Určeno pro

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

Vstupní znalosti

Participants must complete the Firewall 9.0 Essentials: Configuration and Management (EDU-210) course. Participants must have strong practical knowledge of routing and switching, IP addressing, and network-security concepts, and at least six months of on-the-job experience with Palo Alto Networks firewalls. Palo Alto Networks Education Training from Palo Alto Networks and Palo Alto Networks Authorized Training Centers delivers knowledge and expertise that prepare you to protect our digital way of life. Our trusted security certifications validate your knowledge of the Palo Alto Networks Security Operating Platform and your ability to help prevent successful cyberattacks and safely enable applications.

Program

Module 1: Tools and Resources Module 2: CLI Primer Module 3: Flow Logic Module 4: Packet Captures
Module 5: Packet-Diagnostics Logs Module 6: Host-Inbound Traffic Module 7: Transit Traffic Module 8: System Services
Module 9: SSL Decryption Module 10: User-IDTM Module 11: GlobalProtectTM Module 12: Escalation and RMAs
