VMW_WSVSWN8	16 Hours (2 DENNÍ)	Kč bez DPH 22,000.00

### Description

V tomto dvoudenním kurzu se seznámíte s novými funkcemi a vylepšeními VMware vCenter Server 8.0 a VMware ESXi 8.0. Díky scénářům z reálného nasazení, praktickým cvičením v labech a prezentacím Vás naučí dovednostem, které potřebujete k efektivní implementaci a konfiguraci VMware vSphere 8.0.

Product Alignment

- VMware ESXi 8.0
- VMware vCenter Server 8.0

### Cíle

By the end of the course, you should be able to meet the following objectives:

- Recognize the importance of key features and enhancements in vSphere 8.0
- Describe vCenter Server, VMware ESXi, storage, virtual machine, and security enhancements in vSphere 8.0
- Describe the purpose of vSphere Distributed Services Engine
- Update an ESXi host equipped with a Data Processing Unit (DPU) using vSphere Lifecycle Manager
- Identify devices supported for system storage on ESXi 8.0
- Recognize enhancements to VM hardware compatibility settings
- VMware vSphere Memory Monitoring and Remediation and the improvements to vSphere DRS
- Recognize the new Virtual Non-Uniform Memory Access (vNUMA) topology settings of a VM in vSphere Client
- Use vSphere Lifecycle Manager and Auto Deploy to manage the configuration specifications for the hosts in a cluster
- Recognize the vSphere Lifecycle Manager and Auto Deploy enhancements in vSphere 8.0
- Recognize the cloud benefits that VMware vSphere+ brings to on-premises workloads
- Recognize technology that is discontinued or deprecated in vSphere 8.0

### Určeno pro

System architects, system administrators, IT managers, VMware partners, and individuals responsible for implementing and managing vSphere architectures who want to deploy vSphere 8.0 into their existing vSphere environment.

### Vstupní znalosti

This course requires completion of one of the following courses, or equivalent knowledge, plus administration experience with ESXi and vCenter Server:

- VMware vSphere: Install, Configure, Manage
- VMware vSphere: Optimize and Scale
- VMware vSphere: Fast Track
- VMware vSphere: Troubleshooting
- Experience with working at the command line is helpful.

The course material presumes that you can perform the following tasks with no assistance or guidance before enrolling in this course:

- Install and configure ESXi
- Install vCenter Server
- Create vCenter Server objects, such as data centers and folders
- Create and manage vCenter Server roles and permissions
- Create and modify a standard switch
- Create and modify a distributed switch
- Connect an ESXi host to NAS, iSCSI, or Fibre Channel storage
- Create a VMware vSphere VMFS datastore
- Use a content library template to create a virtual machine
- Modify a virtual machine's hardware
- Migrate a virtual machine with VMware vSphere vMotion and VMware vSphere Storage vMotion
- Configure and manage a VMware vSphere Distributed Resource Scheduler cluster
- Configure and manage a VMware vSphere High Availability cluster
- Use VMware vSphere Lifecycle Manager to perform upgrades to ESXi hosts and VMs

If you cannot complete these tasks, VMware recommends that you instead take the VMware vSphere: Install, Configure, Manage [V8] course.

## Program

- 1 Course Introduction
  - Introductions and course logistics
  - Course objectives
- 2 Artificial Intelligence and Machine Learning
  - Describe how device groups support AI and ML in vSphere 8
  - Describe how device virtualization extensions support AI and ML in vSphere 8
- 3 vSphere Distributed Services Engine
  - Describe the benefits of Distributed Services Engine
  - Explain how Distributed Services Engine works
  - Recognize use cases for Distributed Services Engine
  - Install ESXi on a host equipped with a DPU
  - View DPU information in vSphere Client
  - Add an ESXi host equipped with a DPU to a cluster
  - Update an ESXi host equipped with a DPU using vSphere Lifecycle Manager
  - Create a vSphere Distributed Switch for network offloads
  - Add a host with a DPU to the vSphere Distributed Switch
  - Configure a VM to use Uniform Passthrough Mode
- 4 vSphere and vCenter Management
  - Review the improvements to the communication between vCenter and ESXi hosts
  - Review the enhancements to the vCenter recovery process
- 5 ESXi Enhancements
  - Describe the function of the central configuration store in ESXi
  - Explain how ConfigStore affects your interaction with ESXi configuration files
  - Recognize the supported system storage partition configuration on ESXi 8.0
  - Identify devices supported for system storage on ESXi 8.0
  - Configure an RDMA host local device on ESXi
- 6 vSphere Storage
  - Describe the vSAN Express Storage Architecture
  - Recognize the benefits of using vSAN Express Storage Architecture
  - Describe the benefits of using NVMe
  - Recognize the support for NVMe devices in vSphere
- 7 Guest OS and Workloads
  - Review the enhancements of the latest virtual hardware versions
  - Describe the features introduced with virtual hardware version 20
  - Create a snapshot of a VM with an NVDIMM device
- 8 Resource Management
  - View energy and carbon emission metrics in vRealize Operations Manager
  - Describe the VMware vSphere Memory Monitoring and Remediation (vMMR) functionality
  - Describe how vMMR enhances the performance of vSphere DRS
- 9 Security and Compliance
  - Describe how to handle vTPM secrets when cloning a VM
  - Manage OVF templates for VMs that are configured with vTPM
  - Deploy an OVF template with vTPM
  - Describe the enhancements to trusted binary enforcement in ESXi
  - Describe ESXi 8 enhanced security features

#### 10 vSphere Lifecycle Manager

- Describe the enhancements to life cycle management of standalone ESXi hosts
- Manage the configuration profiles of ESXi hosts in a cluster with vSphere Lifecycle Manager
- Use Auto Deploy to boot a host with the desired image and configuration specifications
- Upgrade multiple ESXi hosts in a cluster in parallel
- Stage an ESXi host image prior to remediation

#### 11 Auto Deploy

#### 12 vSphere with Tanzu

- Manage custom host certificates using Auto Deploy
- Describe the features of the Tanzu Kubernetes Grid 2.0 offering

#### 13 Announcing vSphere+

- Describe the functionality and benefits of vSphere+

### Termíny školení

Datum	Místo konání	Časové pásmo	Jazyk	Typ	Garance termínu	CENA
28 Apr 2025	Virtual Classroom	CEDT	Čeština	Instructor Led Online	Yes	Kč bez DPH 22,000.00

### Dodatečné informace

Školení je možné zajistit na míru. [Kontaktujte nás pro bližší informace.](#)
