| SYM_000195 | 8 Hours (1 den) | Kč bez DPH 11,000.00 |

## Description

The Symantec Web Isolation Planning, Implementation, and Administration R2 course provides a detailed introduction to Symantec's two cloud-based isolation services: High Risk Isolation (HRI) and the Web Isolation dedicated tenant. The course includes implementation of the key protection scenarios with both Web Security Service and the ProxySG, as well as a description of the functions available in the Web Isolation management console.

## Cíle

By the completion of this course, you will be able to:

- Describe the major Web Isolation functions and capabilities
- Write policies to selectively isolate risky and uncategorized websites, allow privileged users greater access, and defend against phishing and ransomware attacks
- View reports and monitor solution performance

## Vstupní znalosti

- Basic understanding of networking concepts
- Basic understanding of network security concepts
- Basic understanding of the use of proxy servers

## Program

### Module 1: Introduction to Symantec Web Isolation

- The need for a web isolation solution
- Symantec Web isolation—Protection without detection
- High Risk Isolation web traffic protection
- Web Isolation dedicated tenant web traffic protection

### Module 2: Implementing Web Isolation

- Implementing Isolation with Web Security Service
- Implementing Isolation with the ProxySG

### Module 3: Administering the Web Isolation dedicated tenant

- Web isolation management console overview
- Removing active content from webpages
- Isolating links embedded in email to defend against phishing attacks
- Enabling safe file download protections
- Working with applications remotely

### Module 4: Viewing reports and monitoring performance

- Viewing reports
- Monitoring performance

### Module 4: Integrating Web Isolation with DLP, CloudSOC Mirror Gateway, and Email Security.cloud

- Integrating Web Isolation with DLP
- Integrating Web Isolation with CloudSOC Mirror Gateway
- Integrating Web Isolation with Symantec Email Security.cloud
- Integrating Web Isolation with third-party providers

### Module 5: Course review

- Symantec Web Isolation course review
