Cíle

By the completion of this course, you will be able to:
Describe the architecture, components and process flow of Cloud SWG
Identify installation, configuration and administration of the core features and products of Cloud SWG.
Identify the key elements for planning a Cloud SWG deployment

Vstupní znalosti

Working knowledge of cloud based solutions
Knowledge of internet traffic protocols
Basic understanding of principles of authentication

Program

- What is Cloud Delivered Security
- What are the Key Considerations for Having Cloud Delivered Security
- Module 1: Cloud Delivered Security What are the Key Features Needed for Cloud Delivered Security
- Module 2: Cloud SWG Connection Architecture and Functionality
- Module 3: Getting Started with Cloud SWG
 - Cloud SWG Infrastructure
 - Initial Registration
 - Cloud SWG Connection Architecture
 - User Administration
 - Cloud SWG Features
 - Licensing
 - Cloud SWG Additional Products
 - Data Privacy Settings
- Module 4: Enable Remote Users to Securely Access the Internet
 - Remote Users and Solutions
 - WSS Agent Access Method
 - Web and Cloud Access Protection Access Method
 - Cloud Connect Defense (CCD) Access
- Module 5: Provide Safe and Proper Web Usage Based on User Identity Authentication and Cloud SWG
 - Auth Connector
 - SAML
 - Remote Authentication Methods with Auth Connector
 - Authentication with WSS Agent and Web and Cloud Access Protection Access Methods
- Module 6: Create a more Effective Work Environment for Employee Web Usage
 - Configure Content Filtering Rules to Determine Internet Usage
 - Setting Global Content Filtering Policy Rules
 - Creating Custom Response Pages
 - Universal Policy Enforcement

Module 7: Providing Web Protection Against Malware
Cloud SWG Threat Protection
Malware Analysis and Cloud SWG
Threat Protection Policies
Creating Threat Protection Policy Rules

Module 8: Enable Encrypted Traffic Inspection
Encrypted Traffic
SSL Configuration
Configuring SSL Exceptions
Topic Title

Module 9: Enable Corporate Users to Securely Access the Internet

Firewall/VPN (IPsec) Access Method
FQDN-IKEv2 Firewall Access Method
TransProxy (Explicit Proxy Over IPsec) Access Method
Proxy Forwarding Access Method

Module 10: Identify Web Usage and Security Statistics with Reports

Reports Overview
Pre-defined Reports
Simple Reporting
Custom Reporting
Forensic Reporting
Managing and Using Reports

Module 11: Enable Mobile Users to Securely Access the Internet

About Mobile Device Security
Authentication for Mobile Users
SEP-Mobile Solution
Android Mobile Access Enrollment Process

Module 12: Planning Cloud SWG Deployments

Assessment of Needs
Design – Access Methods and Authentication
Design – Policy, Reporting and Threat Protection
Design Evaluation

Zkoušky a certifikace

Exam 250-554: Administration of Symantec Web Security Service – R1.2
