# Symantec Web Protection - Cloud SWG Planning, Implementation, and Administration R1

**Kód:** SYM\_000208      **DÉLKA:** 16 Hours (2 DENNÍ)      **CENA:** Kč bez DPH 22,000.00

## Description

The Symantec Web Protection - Cloud SWG Planning, Implementation, and Administration course is intended for IT professionals who will be planning, installing, configuring or administering the Symantec Cloud Secure Web Gateway.

## Cíle

By the completion of this course, you will be able to:  
Describe the architecture, components and process flow of Cloud SWG  
Identify installation, configuration and administration of the core features and products of Cloud SWG.  
Identify the key elements for planning a Cloud SWG deployment

## Vstupní znalosti

Working knowledge of cloud based solutions  
Knowledge of internet traffic protocols  
Basic understanding of principles of authentication

## Program

- What is Cloud Delivered Security
- What are the Key Considerations for Having Cloud Delivered Security
- Module 1: Cloud Delivered Security What are the Key Features Needed for Cloud Delivered Security
- Module 2: Cloud SWG Connection Architecture and Functionality
- Module 3: Getting Started with Cloud SWG
  - Cloud SWG Infrastructure
  - Initial Registration
  - Cloud SWG Connection Architecture
  - User Administration
  - Cloud SWG Features
  - Licensing
  - Cloud SWG Additional Products
  - Data Privacy Settings
- Module 4: Enable Remote Users to Securely Access the Internet
  - Remote Users and Solutions
  - WSS Agent Access Method
  - Web and Cloud Access Protection Access Method
  - Cloud Connect Defense (CCD) Access
- Module 5: Provide Safe and Proper Web Usage Based on User Identity Authentication and Cloud SWG
  - Auth Connector
  - SAML
  - Remote Authentication Methods with Auth Connector
  - Authentication with WSS Agent and Web and Cloud Access Protection Access Methods
- Module 6: Create a more Effective Work Environment for Employee Web Usage
  - Configure Content Filtering Rules to Determine Internet Usage
  - Setting Global Content Filtering Policy Rules
  - Creating Custom Response Pages
  - Universal Policy Enforcement

Module 7: Providing Web Protection Against Malware  
Cloud SWG Threat Protection  
Malware Analysis and Cloud SWG  
Threat Protection Policies  
Creating Threat Protection Policy Rules

Module 8: Enable Encrypted Traffic Inspection  
Encrypted Traffic  
SSL Configuration  
Configuring SSL Exceptions  
Topic Title

Module 9: Enable Corporate Users to Securely Access the Internet

Firewall/VPN (IPsec) Access Method  
FQDN-IKEv2 Firewall Access Method  
TransProxy (Explicit Proxy Over IPsec) Access Method  
Proxy Forwarding Access Method

Module 10: Identify Web Usage and Security Statistics with Reports

Reports Overview  
Pre-defined Reports  
Simple Reporting  
Custom Reporting  
Forensic Reporting  
Managing and Using Reports

Module 11: Enable Mobile Users to Securely Access the Internet

About Mobile Device Security  
Authentication for Mobile Users  
SEP-Mobile Solution  
Android Mobile Access Enrollment Process

Module 12: Planning Cloud SWG Deployments

Assessment of Needs  
Design – Access Methods and Authentication  
Design – Policy, Reporting and Threat Protection  
Design Evaluation

## Zkoušky a certifikace

Exam 250-554: Administration of Symantec Web Security Service – R1.2

## Termíny školení

Termíny školení na vyžádání, [kontaktujte nás prosím](#)

## Dodatečné informace

Školení je možné zajistit na míru. [Kontaktujte nás pro bližší informace.](#)
