Symantec Endpoint Protection 14.x Administration R1

Kód:	DÉLKA:	CENA:
SYM_000229	40 Hours (5 DENNÍ)	Kč bez DPH 55,000.00

Description

The Symantec Endpoint Protection 14.x Administration R1 course is designed for the network, IT security, and systems administration professional in a Security Operations position tasked with the day-to-day operation of the SEPM on-premise management console and with configuring optimum security settings for endpoints protected by Endpoint Protection.

Cíle

By the completion of this course, you will be able to:

- Describe how the Endpoint Protection Manager
- (SEPM) communicates with clients and make
- appropriate changes as necessary.
- Design and create Endpoint Protection group
- structures to meet the needs of your organization.
- Respond to threats using SEPM monitoring and
- reporting.
- Analyze the content delivery system (LiveUpdate).
- Configure Group Update Providers.
- Create location aware updates.
- Secure endpoints against network and file-based
- threats
- Control endpoint integrity and compliance
- Enforce an adaptive security posture

Vstupní znalosti

This course assumes that students have a basic understanding of advanced computer terminology, including TCP/IP networking and Internet terms, and an administrator-level knowledge of Microsoft Windows operating systems.
