IBM Cognos Analytics: Enterprise Administration (V11.2)

CODE:	LENGTH:	PRICE:
B6355G	16 Hours (2 dage)	kr 11,640.00

Description

This offering covers the fundamental concepts of installing and configuring IBM Cognos Analytics, and administering servers and content, in a distributed environment. In the course, participants will identify requirements for the installation and configuration of a distributed IBM Cognos Analytics software environment, implement security in the environment, and manage the server components. Students will also monitor and schedule tasks, create data sources, and manage and deploy content in the portal and IBM Cognos Administration.

Objectives

Introduction to IBM Cognos Analytics administration
IBM Cognos Analytics components
Administration workflow
IBM Cognos Administration
IBM Cognos Configuration
Identify IBM Cognos Analytics architecture
Features of the IBM Cognos Analytics architecture
Examine the multi-tiered architecture, and identify logging types and files
Examine IBM Cognos Analytics servlets
Performance and installation planning
Balance the request load
Configure IBM Cognos Analytics
Secure the IBM Cognos Analytics environment
Identify the IBM Cognos Analytics security model
Define authentication in IBM Cognos Analytics
Define authorization in IBM Cognos Analytics
Identify security policies
Secure the IBM Cognos Analytics environment
Administer the IBM Cognos Analytics server environment
Administer IBM Cognos Analytics servers
Monitor system performance
Manage dispatchers and services
Tune system performance, and troubleshoot the server
Audit logging
Dynamic cube data source administration workflow
Manage run activities
View current, past, and upcoming activities
Manage schedules
Manage content in IBM Cognos Administration
Data sources and packages
Manage visualizations in the library
Deployment
Other content management tasks
Examine departmental administration capabilities
Create and manage team members
Manage activities
Create and manage content and data
Manage system settings
Manage Themes, Extensions, and Views
Share services with multiple tenants

Audience

Administrators

Prerequisites

- Basic knowledge of Web application server architectures
- Basic knowledge of security systems administration
- Experience using basic Windows functionality
- Knowledge of your business requirements
