# Introduction to Containers Kubernetes and Red Hat OpenShift

CODE: LENGTH: PRICE:

REH DO180 16 Hours (2 dage) kr 28,300.00

#### **Description**

Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) helps you build core knowledge in managing containers through hands-on experience with containers, Kubernetes, and the Red Hat® OpenShift® Container Platform. These skills are needed for multiple roles, including developers, administrators, and site reliability engineers. This course is based on Red Hat OpenShift Container Platform 4.2

#### **Audience**

- •Developers who wish to containerize software applications
- •Administrators who are new to container technology and container orchestration
- Architects who are considering using container technologies in software architectures
- Site reliability engineers who are considering using Kubernetes and Red Hat OpenShift

#### **Prerequisites**

- •Be able to use a Linux terminal session, issue operating system commands, and be familiar with shell scripting
- •Have experience with web application architectures and their corresponding technologies
- •Being a Red Hat Certified System Administrator (RHCSA®) is recommended, but not required

#### **Programme**

- •Understand container and OpenShift architecture.
- Create containerized services.
- Manage containers and container images.
- •Create custom container images.
- •Deploy containerized applications on Red Hat OpenShift.
- •Deploy multi-container applications.

#### **Session Dates**

På anmodning. Kontakt os venligst
