Immersion Workshop. Self-preparation for FCX practical exam

CODE:

FNT_FT-FCX-IMM

LENGTH:

16 Hours (2 dage)

PRICE:

kr 14,640.00

Description

In this two-day lab immersion, you will be challenged to configure a variety of Fortinet products based on a set of objectives. Fortinet products in the lab include FortiGate, FortiManager, FortiAnalyzer, FortiWeb, FortiMail, FortiADC, FortiAuthenticator, and FortiSandbox.

During the sessions, an FCX Cybersecurity certified instructor is available for questions and to support you while you complete tasks.

Objectives

After completing this course, you will have a better understanding of the level and complexity of the tasks and topology that are involved with the NSE8 practical exam. This will help you to prepare for the NSE 8 practical exam, where you will be faced with a different set of tasks and a new topology of the same complexity level.

Audience

Networking and security professionals in pursuit of FCX Cybersecurity certification.

Prerequisites

Students must pass the current NSE8 written exam before attempting this course.

- Technical requirements:
 - Laptop (minimum 15" screens)
 - Internet connection allowing outbound access to port 443/TCP
 - A modern browser supporting HTML5 (Chrome recommended)

Programme

1. Networking
2. Operations
3. VPN
4. Policies
5. Authentication
6. Management

7. Advanced Technologies

Further Information

To take the online format of this class, you must use a computer that has the following:

- A high-speed Internet connection
- An up-to-date web browser
- A PDF viewer
- Speakers or headphones
- One of the following:
 - HTML 5 support
 - An up-to-date Java Runtime Environment (JRE) with Java plugin enabled in your web browser

You should use a wired Ethernet connection, *not* a WiFi connection. Firewalls, including Windows Firewall or FortiClient, must allow connections to the online labs.

Session Dates
