CCSP Online Self-Paced Training

CODE:	LENGTH:	PRICE:
ISC_CCSP_OLSP	720 Hours (90 dage)	Free

Description

Official ISC2 Online Self-Paced CCSP Training is a groundbreaking way to prep for certification that uses artificial intelligence to customize your learning journey. It pinpoints areas that require additional focus and guides you through your exam prep in a way that's truly personalized.

Study smarter, not harder, with these key advantages:

- Personalized instruction
 - Content, pace and difficulty adapt to your individual knowledge, learning speed and confidence level.
- Enhanced engagement
 - Immediate feedback and dynamic content enable you to learn at an appropriate level.
- Time savings
 - Training time is optimized by focusing on areas that require the most review.
- Improved learning outcomes
 - The platform identifies areas requiring further review and provides targeted support to maximize your understanding of the content.

What's included with each option*:

- Self-paced online adaptive learning journey
- Data-driven analytics dashboard for real-time feedback on learner progress
- Robust search functionality to narrow topics
- Pre- and post-course assessments
- Knowledge checks and end-of-domain quizzes
- Official ISC2 CCSP eTextbook
- Official ISC2 CCSP Study Questions eBook
- Interactive content
- Domain-by-domain study sheets with key points
- Email content support
- Online interactive flash cards
- Glossary of Terms
- 24/7/365 chat technical support

*Learners receive same-day access to the course materials. Your 90- or 180-day access starts at date of purchase.

Objectives

Certified Cloud Security Professional (CCSP) training leverages the power of artificial intelligence, guiding students through a self-paced learning experience adapted to their unique needs. It covers the advanced technical skills and knowledge for designing, managing and securing data, applications, and infrastructure in the cloud.

Audience

CCSP training is for those seeking a comprehensive review to pursue CCSP certification. It is ideal for security professionals with at least five years of work experience in information technology, of which three years must be in information security and one year in one or more of the domains listed below.

Programme

What Is Covered?

- Domain 1: Cloud Concepts, Architecture, and Design
- Domain 2: Cloud Data Security
- Domain 3: Cloud Platform and Infrastructure Security
- Domain 4: Cloud Application Security
- Domain 5: Cloud Security Operations
- Domain 6: Legal, Risk, and Compliance

What Will You Learn?

- Describe the cloud reference architecture.
- Indicate the design principles of secure cloud computing.
- Implement the cloud data security.
- Apply the cloud platform and infrastructure security.
- Practice the cloud application security.
- Construct the cloud security operations.
- Prepare to meet legal, risk, and compliance requirements.

Test and Certification

Requisites

To earn a Validation of Completion, learners must:

- Complete and pass each domain with a score of 75% or higher (includes all knowledge checks and the end-of-domain assessment).
- Complete the Learner Acknowledgement, verifying you are enrolled and authorized to take the final assessment.
- Complete and pass the final assessment with a score of 75% or higher.
- Complete the course evaluation survey.

Validity

A Validation of Completion is awarded to learners who meet the requisites and successfully complete their final assessment. While it may be used to prepare for professional certification, the Validation of Completion does not demonstrate competency, establish expertise or imply licensing or accreditation in any field. To earn the CCSP certification, you must pass the exam and meet the experience requirements.

Certificates are valid for three years from the date issued. Certificates cannot be renewed at the end of the three-year term.

Further Information

Languages Offered

At this time, content is only available in English.

Cancellation Policy

ISC2 Official Certification Training is not eligible for refunds

CPE Credits

Official ISC2 online training qualifies for Continuing Professional Education (CPE) credits. See the [ISC2 CPE Handbook](#) and [ISC2 CPE Opportunities](#) for details.

Technology Requirements

The following are system requirements needed to enhance your overall learning experience. A stable and continuous internet connection is required. In order to record your completion of the online learning courses, please ensure you are connected to the internet at all times while taking the course.

Hardware Specifications

- Processor 2 GHz +
- RAM 4 GB +
- Monitor minimum resolution (1024 x 768)
- Video card
- Keyboard and mouse or other assistive technology

Computer Peripherals

- Speakers/headphones (noise-cancelling headset is recommended)
- Microphone
- Camera (recommended)

Supported Operating Systems

- Macintosh OS X 10.10 to present
- Windows 10 to present

Supported Browsers

- Google Chrome

- Microsoft Edge
- Mozilla Firefox

Application Software

- Adobe Reader:
<https://get.adobe.com/reader/>
