Citrix Virtual Apps and Desktops 7 Advanced Deployment, Troubleshooting, Security and Administration

CODE: CTX_CWS-315 **LÄNGE:** 40 Hours (5 Tage) **PREIS:** €2,895.00

Description

Designed to learn how to set up scalability, redundancy and security configurations. You will learn advance features to optimize management of your app and desktop images by building and combining App Layers and Workspace Environment Management, which can improve logon times, centralize user settings management, optimize the performance of machines running the Virtual Delivery Agent (VDA).

In the advanced troubleshooting section, you will learn techniques to investigate many of the common issues that can affect environment health. You'll leave this course with a good understanding of how to manage more complex solutions such as multizone environments spanning multiple locations with configurations around StoreFront, the Delivery Controllers, and HDX.
