Symantec Data Loss Prevention 15.5 Planning and Implementation

CODE:	LÄNGE:	PREIS:
SYM_00034499	8 Hours (1 day)	€3,200.00

Description

The Symantec Data Loss Prevention 15.5 Planning and Implementation course provides a basic introduction to Symantec Data Loss Prevention (DLP) architecture, discusses important design considerations for planning a Symantec DLP implementation, and guides you through the processes of installing the Symantec DLP Oracle database and the various server and agent components of Symantec DLP.

Video demonstrations show how to install and configure the Oracle database, deploy a Cloud Service for Email cloud detector, configure SaaS email to work with Cloud Service for Email, and deploy a Network Prevent for Email virtual appliance.
Hands-on labs include exercises for installing the Enforce Server, a detection server, an OCR Server, and an Endpoint Agent, and then testing the Symantec DLP environment to verify it can detect policy violations and create incidents.
Note:
This course is delivered on a Microsoft Windows platform.

Voraussetzungen

Working knowledge of Windows server-class operating systems and commands
Networking and Network Security concepts

Inhalt

Module 1: Overview of Symantec Data Loss Prevention Products and Architecture

Overview of Symantec Data Loss Prevention products
Overview of Symantec Data Loss Prevention architecture
Some examples of Symantec Data Loss Prevention data flows

Module 2: Design considerations for Implementing Symantec Data Loss Prevention
Laying the groundwork for a Symantec Data Loss Prevention implementation
Design considerations for the Symantec Data Loss Prevention database and the Enforce Server
Design considerations for the Data in Motion
Design considerations for the OCR Server
Design considerations for Data at Rest
Symantec Data Loss Prevention implementation project: Sample timeline and tasks

Module 3: Installing Symantec Data Loss Prevention
Preparing to install Symantec Data Loss Prevention
Installing the Oracle database
Installing the Enforce Server
Installing a detection server
Installing an OCR server
Installing the Endpoint Agent
Hands-On Labs: Install an Enforce Server; install a detection server; install an OCR server; install an Endpoint Agent; test the Symantec Data Loss Prevention environment

Module 4: Course Review
Review of Symantec Data Loss Prevention Products and Architecture
Review of Design Considerations for Implementing Symantec Data Loss Prevention
Review of Installing Symantec Data Loss Prevention

Weiterführende Kurse

Symantec Data Loss Prevention 15.5 Administration
Symantec Data Loss Prevention 15.5 Policy Authoring and Incident Remediation

Test und Zertifizierung

250-553: Administration of Symantec Data Loss Prevention 15.5
