# Symantec Endpoint Detection and Response 4.x Planning, Implementation, and Administration R1

CODE:	LÄNGE:	PREIS:
SYM_000200	24 Hours (3 Tage)	€2,400.00

## Description

The Symantec Endpoint Detection and Response 4.x Planning, Implementation, and Administration course is designed for the IT security and systems administration professional in a Security Operations role. This course covers how to investigate, remediate, and recover from a security incident using Symantec Endpoint Detection and Response, as well as the prerequisite sizing and architecture configurations for implementing Symantec Endpoint Detection and Response On-Prem.

## Lernziel

Plan and implement a Symantec Endpoint Detection and Response deployment  
Configure SEDR to perform endpoint detection and response  
Identify evidence of suspicious and malicious activity  
Search for indicators of compromise  
Block, isolate, and remove threats in the environment  
Collect forensic information

By the completion of this course, you will be able to:

## Voraussetzungen

This course assumes that students are familiar with Symantec Endpoint Detection & Response and Symantec Endpoint Protection.

## Inhalt

This course assumes that students are familiar with Symantec Endpoint Detection & Response and Symantec Endpoint Protection.

Programme

Module 1: Introduction

The Evolving Threat Landscape

Challenges of Endpoint Detection and Response in the environment

How Symantec Endpoint Detection and Response meets objectives

Components of Symantec Endpoint Detection and Response

Shared Technologies

Symantec Endpoint Detection and Response AddOns and Integrations Module 2: Architecture and Sizing

		System Requirements
		Installing and Bootstrapping
		Setup Wizard
		Management Console Overview
Architecture and Sizing Overview		Managing Certificates
Architecture		User Accounts and Roles
Sizing	Module 3: Implementation	Symantec Endpoint Protection Integration
	Understanding Suspicious & Malicious Activity	
	Prerequisite configuration or considerations	
	Identifying evidence of suspicious/malicious activity	
Module 4: Detecting Threats	with Symantec EDR	Module 5: Investigating Threats
General Stages of an Advanced Attack		Cybersecurity Framework
Understanding Indicators of Compromise		Isolating Threats in The Environment
Searching for Indicators of Compromise		Blocking Threats in The Environment
Analyzing Endpoint Activity Recorder Data		Removing Threats in The Environment
Additional Investigation Tools	Module 6: Responding to Threats	Tuning the Environment
	Recovery Overview	
	Notifications and Reporting	
	Collecting forensic data for further investigation of security incidents	
	Using Symantec EDR to create a Post Incident Report	
Module 7: Reporting on Threats
