# VMware vRealize Operations for Operators [V8.6]

| CODE: | LÄNGE: | PREIS: |
|---|---|---|
| VMW_VROPSOP86 | 16 Hours (2 Tage) | €1,500.00 |

## Description

This two-day course is for users who are responsible for day-to-day management of VMware vRealize® Operations™. This course explains policies, capacity concepts, and workload optimization with real-world use cases. This course covers application monitoring, troubleshooting using workbench, alerts, predefined dashboards, and explains how to manage compliance and configurations.

Note: If you have taken the VMware vRealize Operations: Install, Configure, Manage course, duplicate content makes this course unsuitable for you.

### Lernziel

By the end of the course, you should be able to meet the following objectives:
• List the vRealize Operations use cases
• Identify features and benefits of vRealize Operations
• Use interface features to assess and troubleshoot operational problems
• Create policies to meet the operational needs of your environment
• Recognize effective ways to optimize performance, capacity, and cost in data centers
• Troubleshoot and manage problems using workbench, alerts, and predefined dashboards
• Manage configurations
• Configure application monitoring using VMware vRealize® Operations Cloud Appliance™
• Monitor the health of the vRealize Operations cluster
• Perform cluster management tasks

### Zielgruppe

vRealize Operations on-premises customers including operators and system administrators.

### Voraussetzungen

Before taking this course, you must complete at least one of the following:
• VMware vSphere: Install, Configure, Manage [V7]
• 6 months hands-on vRealize Operations experience

### Inhalt

1 Course Introduction
• Introductions and course logistics
• Course objectives
2 Introduction to vRealize Operations
• List the vRealize Operations use cases
• Access the vRealize Operations User Interface (UI)
3 vRealize Operations Concepts
• Identify the product UI components
• Create and use tags to group objects
• Use a custom group to group objects
4 vRealize Operations Policies
• Create policies for the various workloads
• Explain how policy inheritance works
5 Capacity Optimization
• Define the capacity planning terms
• Explain the capacity planning models
• Assess the overall capacity of a data center and identify the optimization recommendations
6 Costing in vRealize Operations
• Discuss about the cost drivers in vRealize Operations
• Assess the cost of your data center inventory
7 Performance Optimization
• Introduction to performance optimization
• Define the business and operational intentions for a data center
• Automate the process of optimizing and balancing workloads in data centers
• Report the results of the optimization potential
8 Troubleshooting and Managing Configuration
• Describe the troubleshooting workbench
• Recognize how to troubleshoot problems by monitoring alerts
• Use step-by-step workflows to troubleshoot the vSphere objects
• Assess your environment's compliance to standards

• View the configurations of the vSphere objects in your environment
9 Operating System and Application Monitoring
• Describe the native service discovery and application monitoring features
• Configure the application monitoring
• Monitor the operating systems and applications
10 Managing a vRealize Operations Deployment
• Monitor the health of a vRealize Operations cluster
• Generate a support bundle
• View the vRealize Operations log files and audit reports
• Perform the vRealize Operations cluster management tasks

## Kurstermine

| Datum | Lokation | Time Zone | Sprache | Type | Durchführungsgarantie | PREIS |
|-------|----------|-----------|---------|------|----------------------|-------|
| 02 Dec 2024 | Virtual Classroom | GMT | German | Instructor Led Online | | €1,500.00 |

## Zusätzliche Information

Diese Schulung ist auch als Vor-Ort-Schulung verfügbar. Bitte kontaktieren Sie uns, um mehr zu erfahren.
