# FortiSASE Core Administrator

| CODE: | LÄNGE: | PREIS: |
| --- | --- | --- |
| FNT_FT-SASE-CORE | 8 Hours (1 day) | €950.00 |

## Description

In this course, you will learn how to deploy and manage FortiSASE to provide secure internet access and protect access to Software-as-a-Service (SaaS) applications for users working from on-site or remote locations. These topics will help you build a fundamental knowledge of FortiSASE basics, and learn how to enforce security policies using endpoint profiles and content inspection.

## Lernziel

After completing this course, you will be able to:

- Describe the SASE architecture
- Construct FortiSASE deployment cases
- Identify the SASE components
- Describe the Fortinet SASE solution
- Integrate FortiSASE into a hybrid network
- Describe the different FortiSASE solutions
- Describe different authentication methods on FortiSASE
- Configure security profile groups and security components
- Configure different types of FortiSASE policies
- Deploy supported FortiSASE use cases
- Configure FortiView monitors
- Configure and generate reports
- Configure dashboards

## Zielgruppe

Networking and security professionals involved in the design, administration, and management of FortiSASE-based network deployment should attend this course.

## Voraussetzungen

- *FortiGate Administrator*
- *FortiClient EMS Administrator*

Lab Prerequisites
To run the labs for the *FortiSASE Core Administrator* course, you *must* have access to the following URLs:

- https://training.fortinet.com/
- https://fndn.fortinet.net/

## Inhalt

1. Introduction to SASE and FortiSASE

2. Deployment Fundamentals
3. SIA and SSA
4. Basic Security and Endpoint Profiles
5. Monitoring and Reporting

## Test und Zertifizierung

This course is intended to help you prepare for the Fortinet NSE 5 - *FortiSASE and SD-WAN Core Administrator* exam. This exam is part of the
FCP SASE certification track.

## Kurstermine

| Datum | Lokation | Time Zone | Sprache | Type | Durchführungsgarantie | PREIS |
