VMware vSphere: Design [V8]

CODE:	LÄNGE:	PREIS:
VMW_VSD8	24 Hours (3 Tage)	€2,250.00

Description

This three-day course equips you with the knowledge, skills, and abilities to design a VMware vSphere 8 virtual infrastructure. You follow a proven approach to design a virtualization solution that ensures availability, manageability, performance, recoverability, and security. The approach presented follows VMware best practices. This course discusses the benefits and risks of available design alternatives and provides information to support making sound design decisions.

Lernziel

By the end of the course, you should be able to meet the following objectives:

• Create a vSphere design given a case study
• Identify and assess the business objectives of the vSphere environment
• Identify business requirements, constraints, assumptions, and risks, for all layers in the vSphere environment
• Apply a framework to a design
• Analyze design choices for vCenter, ESXi, storage, networking, vSphere clusters, and virtual machines
• Identify design decisions to ensure manageability, which include scalability, capacity planning and lifecycle management
• Identify design decisions to ensure that the vSphere environment is highly available
• Identify design decisions to ensure that the vSphere environment performs well
• Identify design decisions to ensure that the vSphere environment is secure
• Identify design decisions to ensure that the vSphere environment can recover from data loss or disaster

Zielgruppe

System integrators, Consultants, Solution architects

Voraussetzungen

This course requires completion of the one of the following:
• VMware vSphere: Install, Configure, Manage
• VMware vSphere: Operate, Scale, and Secure

Inhalt

1 Course Introduction
• Introductions and course logistics
• Course objectives

2 Infrastructure Assessment
• Describe various design framework principles
• Follow a proven process to design a virtualization solution
• Define customer business objectives and requirements
• Use a systematic method to evaluate and document a conceptual model
• Create a logical design from a conceptual model
• Recognize key information contained in the physical design

3 Designing for Manageability: Capacity Planning

• Make capacity planning design decisions that adhere to business requirements

• Design capacity planning strategies that meet the needs of the vSphere environment and follow VMware best practices
• Calculate compute and storage requirements for the VMs in the vSphere environment

4 Designing for Manageability: Scalability

• Make scalability design decisions that adhere to business requirements
• Design scalability strategies that meet the needs of the vSphere environment and follow VMware best practices

5 Designing for Manageability: Lifecycle Management

• Make lifecycle management design decisions that adhere to business requirements
• Design lifecycle management strategies that meet the needs of the vSphere environment and follow VMware best practices

6 Designing for Availability
• Make availability design decisions that adhere to business requirements
• Design availability strategies that meet the needs of the vSphere environment and follow VMware best practices

7 Designing for Performance

• Make performance design decisions that adhere to business requirements
• Design performance strategies that meet the needs of the vSphere environment and follow VMware best practices

8 Designing for Security

• Make security design decisions that adhere to business requirements
• Design security strategies that meet the needs of the vSphere environment and follow VMware best practices

9 Designing for Recoverability
• Make recoverability design decisions that adhere to business requirements
• Design recoverability strategies that meet the needs of the vSphere environment and follow VMware best practices

Weitere Informationen

Product Alignment
• VMware ESXi 8.0
• VMware vCenter 8.0

Kurstermine

Datum	Lokation	Time Zone	Sprache	Type	Durchführungsgarantie	PREIS
07 Dec 2026	Virtual Classroom	CET	German	Instructor Led Online		€2,250.00

Zusätzliche Information

Diese Schulung ist auch als Vor-Ort-Schulung verfügbar. Bitte kontaktieren Sie uns, um mehr zu erfahren.
