NSE 7 - FortiSASE Enterprise Administrator

CODE:	LENGTH:	PRICE:
FNT_FT-SASE	16 Hours (2 days)	£1,650.00

Description

In this course, you will learn how to use FortiSASE features, including policy types and security profiles. You will explore FortiSASE deployment, user authentication, use cases, and monitoring. You will also learn how to protect your web traffic and SaaS applications using content inspection, such as antivirus, web filtering, application control, and logging.

Objectives

After completing this course, you will be able to:

- Understand the SASE architecture
- Identify the SASE components
- Understand the Fortinet SASE solution
- Understand how to provision FortiSASE
- Understand the license types
- Understand the different FortiSASE solutions
- Understand different authentication methods on FortiSASE
- Configure zero trust network access (ZTNA) with FortiSASE
- Configure security profiles group and security components
- Configure different types of FortiSASE policies
- Identify the different FortiSASE use cases
- Configure FortiView monitors
- Configure and generate reports
- Configure dashboards

Audience

Networking and security professionals involved in the design, administration, and management of FortiSASE based network deployment should attend this course.
