Veritas Enterprise Vault 14.1: Administration

CODE:	LENGTH:	PRICE:
VER_EV141_A	40 Hours (5 days)	£2,800.00

Description

The *Veritas Enterprise Vault 14.1: Administration* course is designed for system administrators tasked with deploying, configuring, operating, integrating, and monitoring the day-to-day performance of Enterprise Vault. This five-day, instructor-led, hands-on class covers Enterprise Vault's functionality, operations, and features. Additional topics include using basic management, configuring cloud storage, reports, classification, and an overview of Enterprise Vault backup and restore requirements. After you complete this course, you will be able to manage, monitor, and maintain Enterprise Vault.

Objectives

- Describe the purpose and benefits of Enterprise Vault.
- Navigate the Administration Console.
- Describe the components of Enterprise Vault.
- Manage Exchange targets.
- Maintain mailbox archives and client settings.
- Manage client access to archives.
- Migrate PST files.
- Maintain journal archiving.
- Review and maintain Enterprise Vault storage.
- Configure Cloud storage.
- Manage storage retention and deletion.
- Manage Indexing.
- Work with the Veritas Information Classifier.
- Support Enterprise Vault Search.
- Monitor and manage Enterprise Vault servers.

By the end of this course, you will be able to:

- Outline Enterprise Vault backup and recovery.

Audience

This course is for system administrators, system engineers, technical support personnel, and system integration/development staff who are responsible for installing, configuring, operating, and integrating Enterprise Vault within their environment.

Prerequisites

You must have a working knowledge of Microsoft Windows Server 2016 with some system administration experience. Basic familiarity with Exchange/Outlook is sufficient, while an understanding of Microsoft SQL Server, Exchange, and Active Directory as a power user or administrator is useful.

Programme

- Enterprise Vault: Overview

Lesson 1: Introduction to Administering Enterprise Vault • Administering Enterprise Vault: Overview Labs

- Exercise A: Investigating How Enterprise Vault Works for Users
- Exercise B: Exploring the Enterprise Vault Environment
- Exercise C: Enabling Enterprise Vault Auditing

Lesson 2: Maintaining Exchange Targets and Tasks

- Exchange Targets and Tasks: Overview
- Adding Exchange Targets
- Maintaining and Monitoring Required Tasks
- Archiving from an Exchange DAG
- Exercise A: Examining Exchange Target Configuration
- Exercise B: Maintaining and Monitoring Exchange Tasks
- Determining what is Archived from Targets
- Lesson 3: Managing Mailbox Archiving** • Applying Archiving Options to Mailboxes *Labs*
- Exercise A: Determining the Mailbox Policies and Provisioning Groups Assigned to Users
- Exercise B: Creating and Maintaining Mailbox Policies
- Exercise C: Creating and Maintaining Provisioning Groups
- Exercise D: Testing the New Settings
- Managing Client Settings
- Lesson 4: Managing Enterprise Vault Client Settings** • Adding New Users to the Enterprise Vault Environment *Labs*
- Exercise A: Managing Client Settings
- Exercise B: Enabling Users for Archiving
- Lesson 5: Managing Client Access – Outlook**
- Accessing Enterprise Vault Archived Items: Overview
- Supporting Exchange Client Access: Outlook *Labs*
- Exercise A: Exploring Outlook Enterprise Vault Add-In Behavior
- Exercise B: Customizing Outlook Using Enterprise Vault Policy Manager
- Vault Cache and Virtual Vault: Overview
- Lesson 6: Managing Client Access – Vault Cache and Virtual Vault** • Supporting Exchange Client Access: Virtual Vault *Labs*
- Exercise A: Administering Vault Cache
- Exercise B: Enabling Vault Cache and Virtual Vault
- Exercise C: Managing Vault Cache and Virtual Vault
- Lesson 7: Managing Client Access – Office Mail App and OWA**
- Accessing Enterprise Vault Archived Items: Overview
- Supporting Exchange Client Access: Office Mail App
- Supporting Exchange Client Access: Outlook Web App (OWA) *Labs*
- Exercise A: Investigating Enterprise Vault Office Mail App
- Exercise B: Applying Enterprise Vault Office Mail App
- Journal Archiving Overview
- Monitoring Journal Archiving
- Lesson 8: Maintaining Journal Archiving** • Managing Journal Archiving *Labs*
- Exercise A: Investigating How Journal Archiving Works
- Exercise B: Monitoring Journal Archiving
- Exercise C: Maintaining Journal Archiving
- Lesson 9: Migrating PST Files – Introduction**
- PST Migration: Overview
- Using PST Migration Tools
- Configuring PST Settings *Labs*
- Exercise A: Preparing for PST Migration
- Migrating with Client-driven PST Migration
- Lesson 10: Migrating PST Files – Performing Migrations** • Migrating with Server-driven PST Migration *Labs*
- Exercise A: Using Server-driven PST Migration
- Lesson 11: Maintaining the Enterprise Vault Environment**
- Monitoring and Maintaining the Enterprise Vault Server
- Maintaining Database Resources Updating the Environment *Labs*
- Exercise A: Monitoring the Enterprise Vault Environment
- Exercise B: Maintaining Database Resources
- Archive Storage Overview
- Determining Current Storage State and Usage
- Lesson 12: Maintaining Enterprise Vault Storage I** • Expanding the Storage Configuration *Labs*
- Exercise A: Exploring Enterprise Vault Storage Configuration
- Exercise B: Adding Storage to the Enterprise Vault Environment
- Exercise C: Determining Current Storage Usage
- Lesson 13: Maintaining Enterprise Vault Storage II**
- Exercise A: Maintaining Storage Components
- Exercise B: Monitoring and Managing the Storage Queue
- Exercise C: Moving an Archive to a Different Vault Store (optional)
- Maintaining Storage Locations
- Modifying Storage *Labs*
- Using Amazon S3 as Primary Storage
- Using Amazon C2S as Primary Storage
- Using Azure Cloud as Primary Storage
- Lesson 14: Configuring Cloud Storage** • Using Generic S3 as Primary Storage *Labs*
- Exercise A: Configuring Archiving on Generic S3 Storage
- Exercise B: Configuring Archiving on AWS S3 Storage
- Lesson 15: Managing Storage Retention and Deletion**
- Exercise A: Examining Retention and Expiry Settings
- Exercise B: Maintaining Retention and Expiry
- Exercise C: Using Record Management
- Exercise D: Configuring Retention Folders
- Exercise E: Investigating Single Instance Storage (optional)
- Managing Storage Retention and Expiry
- Managing Expiry and Deletion
- Working with Retention Categories and Retention Plans
- Implementing Record Management
- Index Overview
- Monitoring Indexes
- Exercise A: Monitoring and Maintaining Indexes
- Lesson 16: Managing Indexes** • Maintaining Indexes *Labs*
- Exercise B: Managing Indexes using the Manage Indexes Tool
- Classification Overview
- Veritas Information Classifier Prerequisites
- Veritas Information Classifier Interface
- Configuring VIC Classification
- Lesson 17: Managing Information Classifier** • Classification Policies *Labs*

- Exercise A: Enabling the Integrated Classification Engine (ICE)
- Exercise B: Setting up Veritas Information Classifier Policies
- Exercise C: Configuring Enterprise Vault to Classify Items
- Exercise D: Verifying Classification Functionality
- Exercise E: Using Classification to Assign Retention Categories
- Enterprise Vault Search: Overview
- Supporting Search
- Managing Archive Permissions
- Configuring User Deletion and Recovery *Labs*
- Exercise A: Examining and managing Enterprise Vault Search
- Exercise B: Managing User Deletions and Archive Access
- Exercise C: Using Single Sign-On for Enterprise Vault Search with SAML 2.0
 - Managing Monitoring
 - Enterprise Vault Dashboard

Lesson 19: Maintaining, Monitoring, and Reporting • Managing Reporting *Labs*

- Exercise A: Managing Enterprise Vault Reporting
- Exercise B: Using Enterprise Vault Auditing
- Exercise C: Working with Enterprise Vault Dashboard
- Backup Overview
- Backing Up Enterprise Vault Components
- Recovering Enterprise Vault

Further Information

This course includes practical hands-on exercises that enable you to test your new skills and begin to transfer them into your working environment.
