## Description

Check Point CloudGuard is a comprehensive Cloud Security platform to prevent threats and prioritize risks in the cloud across your applications, network, and workloads.

### Learning Path

- CCSA (recommended)
- CCCS (this course)

### Important Information:

We are only able to deliver either the AWS or Azure lab environment during the course (not both) therefore, approximately 2 weeks prior to the course start date we will contact delegates to find out their preference, and we will deliver based upon the majority of requests.

If you have a preference, please advise at the time of booking.
