Cortex XSIAM: Investigation and Analysis

CODE:	**LENGTH:**	**PRICE:**
PAN_EDU-XSIAM-IA	16 Hours (2 days)	£1,545.00

Description

XSIAM is the industry's most comprehensive security incident and asset management platform, offering extensive coverage for securing and managing infrastructure, workloads, and applications across multiple environments.

Throughout this course, you will explore the key features of Cortex XSIAM.

This course is designed to enable you to:
• Investigate incidents, analyze key assets and artifacts, and interpret the causality chain.
• Query and analyze logs using XQL to extract meaningful insights.
• Utilize advanced tools and resources for comprehensive incident analysis.

Scope

- Duration: 2 days
- Format: Lecture and hands-on labs
- Platform support: Cortex

Objectives

The course is designed to enable cybersecurity professionals, particularly those in SOC/CERT/CSIRT and Security Analysts roles, to use XSIAM.

The course reviews XSIAM intricacies, from fundamental components to advanced strategies and techniques, including skills needed to navigate incident handling, automation, and orchestrate cybersecurity excellence.

Audience

SOC/CERT/CSIRT/XSIAM analysts and managers, MSSPs and service delivery partners/system integrators, internal and external professional-services consultants and sales engineers, incident responders and threat hunters.

Prerequisites

Participants should have a foundational understanding of cybersecurity principles and experience with analyzing incidents and using security tools for investigation.

Programme

1 - Introduction to Cortex XSIAM
2 - Endpoints
3 - XQL
4 - Alerting and Detection
5 - Threat Intel Management
6 - Automation
7 - Attack Surface Management
8 - Incident Handling
9 - Dashboards and Reports

Further Information

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks.

Session Dates

On request. Please Contact Us

Additional Information

This training is also available as onsite training. Please contact us to find out more.
