Al+ Security Compliance™

CODE: LENGTH: PRICE:

AIC_AT-230 40 Hours £370.00

Description

Empowering Compliance Through AI

The Al+ Security Compliance™ is an advanced course that merges the fundamental principles of cybersecurity compliance with the transformative power of artificial intelligence (Al). Building on the CISSP framework, this course focuses on how Al can enhance compliance processes, improve risk management, and ensure robust security measures in alignment with regulatory standards. This course introduces you to the core principles of cyber security compliances, while exploring the potential of Al to enhance your security posture. This course structure integrates comprehensive cybersecurity compliance principles with advanced Al applications, providing learners with the necessary skills to ensure compliance and enhance security through Al technologies.

The following tools will be explored in this course:

- Secureframe
- LeewayHertz
- Securiti
- Scytale

Objectives

• Al-Enhanced Compliance Management

Students will be able to integrate Al tools and techniques to streamline and automate compliance processes, ensuring adherence to international cybersecurity standards and regulations.

• Al-Driven Security Solutions

Students will gain hands-on experience with AI applications in security, learning how to implement AI-powered tools for incident response, threat detection, and asset security.

· Risk Management with AI

Students will develop the ability to use AI for conducting comprehensive risk assessments, identifying potential vulnerabilities, and implementing proactive risk mitigation strategies.

• Understanding of Future Al Trends in Cybersecurity

Students will be equipped with knowledge of emerging AI technologies, such as quantum computing, and their implications for cybersecurity, allowing them to stay ahead of evolving threats and innovations.

Audience

Ideal for security professionals, compliance officers, and Al developers working on security-critical Al projects.

Prerequisites

- Basic understanding of cybersecurity principles.
- Knowledge of networking fundamentals.
- Familiarity with programming concepts and languages (Python recommended)
- An introductory course on AI or machine learning is beneficial but not required

There are no mandatory prerequisites for certification. Certification is based solely on performance in the examination. However, candidates may choose to prepare through self-study or optional training offered by AI CERTs® Authorized Training Partners

Programme

Module 1: Introduction to Cybersecurity Compliance and Al

- 1.1 Overview of Cybersecurity Compliance
- 1.2 International Compliance Standards
- 1.3 Developing Compliance Programs
- 1.4 Implementing Compliance Programs
- 1.5 Al in Cybersecurity Compliance
- 1.6 Case Studies and Applications

Module 2: Security and Risk Management with Al

- 2.1 Risk Management Frameworks
- 2.2 Conducting Risk Assessments
- 2.3 Al in Risk Assessment
- 2.4 Compliance and AI
- 2.5 Incident Response and AI

Module 3: Asset Security and Al for Compliance

- 3.1 Data Classification and Protection
- 3.2 Al in Privacy Protection
- 3.3 Asset Management with AI
- 3.4 Case Studies and Best Practices

Module 4: Security Architecture and Engineering with AI

- 4.1 Secure Design Principles
- 4.2 Al in Cryptography
- 4.3 Al in Vulnerability Assessment
- 4.4 Security Models and AI

Module 5: Communication and Network Security with AI

- 5.1 Network Security Fundamentals
- 5.2 AI in Network Monitoring
- 5.3 Al-driven Network Defense
- 5.4 Compliance in Network Security

Module 6: Identity and Access Management (IAM) with AI

- 6.1 IAM Fundamentals
- 6.2 AI in Identity Verification
- 6.3 Access Control and Al
- 6.4 Threats to IAM and Al Solutions

Module 7: Security Assessment and Incident Response with AI

- 7.1 Security Testing Techniques
- 7.2 Al in Security Testing
- 7.3 Continuous Monitoring and AI
- 7.4 Incident Response Planning
- 7.5 Managing Cybersecurity Incidents
- 7.6 Legal and Regulatory Considerations

Module 8: Security Operations with AI

- 8.1 Security Operations Center (SOC)
- 8.2 Data Classification and Protection
- 8.3 Privacy Compliance
- 8.4 Disaster Recovery and AI

Module 9: Software Development Security and Audit with Al

- 9.1 Secure Software Development Life Cycle (SDLC)
- 9.2 Al in Application Security Testing
- 9.3 Al in Secure DevOps
- 9.4 Threat Modeling and AI
- 9.5 Internal and External Audits
- 9.6 Continuous Monitoring

Module 10: Future Trends in Al and Cybersecurity Compliance

- 10.1 Emerging AI Technologies
- 10.2 Al in Cyber Threat Intelligence
- 10.3 Quantum Computing and AI
- 10.4 Ethical Considerations and Al Governance
- 10.5 Practical Applications

Optional Module: Al Agents for Security Compliance

- 1. What Are Al Agents
- 2. Key Capabilities of Al Agents in Cyber Security Compliance
- 3. Applications and Trends for Al Agents in Security Compliance
- 4. How Does an Al Agent Work
- 5. Core Characteristics of Al Agents
- 6. Types of Al Agents

Follow on courses

- Al+ Ethical Hacker™
- Al+ Security Level 1[™]
- AI+ Security Level 2[™]
- AI+ Security Level 3[™]
- Al+ Network™

Test and Certification

• Al-Enhanced Compliance Management

Students will be able to integrate AI tools and techniques to streamline and automate compliance processes, ensuring adherence to international cybersecurity standards and regulations.

Al-Driven Security Solutions

Students will gain hands-on experience with Al applications in security, learning how to implement Al-powered tools for incident response, threat detection, and asset security.

Risk Management with AI

Students will develop the ability to use AI for conducting comprehensive risk assessments, identifying potential vulnerabilities, and implementing proactive risk mitigation strategies.

. Understanding of Future Al Trends in Cybersecurity

Students will be equipped with knowledge of emerging AI technologies, such as quantum computing, and their implications for cybersecurity, allowing them to stay ahead of evolving threats and innovations.

Exam Details

- Duration: 90 minutes
- Passing Score: 70% (35/50)
- Format: 50 multiple-choice/multiple-response questions
- Delivery Method: Online via proctored exam platform (flexible scheduling)

Session Dates

Date	Location	Time Zone	Language	Туре	Guaranteed	PRICE
01 Jan 0001			English	Self Paced Training		£370.00

Additional Information

This training is also available as onsite training. Please contact us to find out more.
