IBM Maximo Asset Management 7.6 Implementation Bootcamp

CODE:	LENGTH:	PRICE:
MAX7600G	72 Hours (9 days)	£5,850.00

Description

This 9-day hands-on technical boot camp provides students with the ability to make informed decisions for the design, planning, and execution of a Maximo Implementation.

This in-depth workshop covers Supply Chain, Maximo features and functions, and materials management and implementation best practice. It also includes business process configurations, customizations, systems integrations, and post-Implementation considerations and activities.

Objectives

Objectives: After you complete this course, you can perform the following tasks:

- Explain the value proposition for Maximo 7.6 and the Enterprise Asset Management portfolio including TRIRIGA and APM
- Perform a Demonstration of Maximo 7.6
- Have a clear understanding of the high-level capabilities and functionality of the core Maximo 7.6 product and key industry solutions and add-ons including Scheduler, Scheduler Plus and MAHI
- Employ and describe the different Maximo applications and functions as they relate to business processes
- Navigate, query, and retrieve data from the Maximo application
- Demonstrate the use of the Work Centre User interfaces
- Describe the asset management life cycle
- Enter core data elements and data structures in Maximo
- Modify screen designs and extend the Maximo data-model
- Implement business process configurations (Workflow)
- Customize Maximo using automation scripting
- Follow a structured methodology for troubleshooting Maximo

Audience

This course is intended for Maximo 7.6 Implementation Consultants, Maximo Support consultants, Maximo Administrators, Technical Sales, Solution Architects and Project Managers

Programme

- Module 1 Course Introduction
- Module 2 Connected Operations Portfolio
- Module 3 Basic Navigation
