Migrating to AWS

CODE:	LENGTH:	PRICE:
AMA_AWS-M	24 Hours (3 days)	£2,245.00

Description

Migrating to AWS discusses how to plan and successfully migrate existing workloads to the AWS cloud. The course focuses on various cloud migration strategies with a detailed discussion on each phase of the migration process, including portfolio discovery, application migration planning and design, migration execution, and post-migration validation and application optimization. This course includes hands-on labs, group activities, and case studies to help reinforce the concepts learned.

Objectives

- Explain the various cloud migration strategies.
- Assess cloud migration readiness.
- Discover your portfolio and plan for migration.
- Plan and design your application migration strategy.
- Perform and validate application migration to the cloud.
- Optimize your applications and operations after migrating to the cloud.

Audience

- IT professionals involved in projects related to migrating existing workloads to the AWS cloud
- Individuals who are part of an organization's cloud Center of Excellence (CoE)

Prerequisites

- Courses taken: AWS Technical Essentials (GK4501) and Architecting on AWS (GK4502)
- Certifications achieved (optional): AWS Certified Solutions Architect – Associate
- Familiarity with enterprise IT infrastructure (hardware and software)

Programme

Day 1

- Migrating to AWS – An Overview
- Discovery, Analysis, and Planning
- Migration Planning and Design

Day 2

- Migration, Integration, and Validation
- Optimizing Applications and Operating in the AWS Cloud
