## Description

In this course, you will learn how to leverage the powerful and diverse capabilities of FortiNAC-F, using best practices for achieving visibility, control, and response.

These fundamentals will provide you with a solid understanding of how to implement network visibility and security automation.

Product Versions

- FortiNAC-F 7.6.3
- FortiGate 7.6.3

## Objectives

After completing this course, you should be able to:

- Configure a FortiNAC-F system to achieve network visibility
- Leverage the control capabilities for network access and automated policy enforcement
- Integrate FortiNAC-F into the Fortinet Security Fabric
- Combine the visibility and control features with security device integrations to automate threat responses to security risks

## Audience

Network and security administrators, managers, and other IT staff who will use FortiNAC-F should attend this course.

## Prerequisites

It is recommended that you have an understanding of the following topics:

- Networking concepts and terms
- Networking protocols
- Infrastructure configurations

## Programme

1. Introduction and Initial Configuration
2. Achieving Network Visibility
3. Identification and Classification of Rogues
4. Visibility, Troubleshooting, and Logging
5. Logical Networks and Fortinet Security Fabric Integration
6. State-Based Control
7. Security Policies
8. Guest and Contractor Management
9. Security Device Integration and Automated Response
10. Advanced Features
11. FortiNAC-F Manager Integrations

## **Test and Certification**

This course is intended to help you prepare for the Fortinet NSE 5 - FortiNAC-F Administrator exam. This exam is part of the [FCP Secure Networking](#) certification track.

## **Session Dates**

On request. Please [Contact Us](#)
