IBM Turbonomic ARM PROfessional

CODE:	LENGTH:	PRICE:
TN950G	35.04 Hours (4.38 days)	£3,250.00

Description

IBM Turbonomic ARM PROfessional training develops a deeper understanding of such advanced features as Kubernetes App Management, ServiceNow integration, Webhooks, Horizon VDI, using the Turbonomic API, and Advanced Reporting.

Class schedule

For a list of all Turbonomic upcoming course sessions and contact information, see: <https://github.com/turbonomic/training/wiki>

Contact information

Internal: IBM_Turbonomic_Enablement-DG@ibm.com External: ibm_turbonomic_enablement@wwpdl.vnet.ibm.com

Objectives

- Build a deeper knowledge of IBM Turbonomic and its advanced features, as well as of related technologies, such as Kubernetes, ServiceNow, Action Scripts, and Horizon VDI
- Use enhanced skills in deployment/installation, configuration, and troubleshooting IBM Turbonomic
- Gain expertise in using the IBM Turbonomic Application Programming Interface (API) to automate tasks

The following lectures are delivered in the class, and each of these has associated hands-on lab activities:

- Turbonomic Architecture and Deployment
- Container Platform Optimization
- Troubleshooting Techniques
- Using the Turbonomic API
- ServiceNow Integration
- Orchestration with Action Scripts & Webhooks
- Advanced Reporting

Download the complete agenda at: <https://ibm-learning-skills-dev.github.io/education/TN950.html>

Audience

This course is designed for those in more technical roles such as software development and sales engineers.

Prerequisites

General understanding of Cloud computing concepts

Programme

The following lectures are delivered in the class, and each of these has associated hands-on lab activities:

- Turbonomic Architecture and Deployment
- Container Platform Optimization
- Troubleshooting Techniques
- Using the Turbonomic API
- ServiceNow Integration

- Orchestration with Action Scripts & Webhooks
- Advanced Reporting

Session Dates
