# Commvault Engineer – CommCell Console

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
COM_AID	24 Hours (3 days)	£1,900.00

## Description

Elevate your knowledge of Commvault® software and maximize your organization’s investment by learning and applying infrastructure design concepts in your environment. The Commvault Engineer course focuses on a deeper understanding of topics such as:

- CommCell® design
- Storage configuration
- Cloud computing and disaster recovery
- Commvault Deduplication
- Application protection in a virtual infrastructure

This course is structured as a design and implementation project where Commvault best practices are applied to prepare the participant to optimally plan for:

- CommServe® placement
- MediaAgent scaling, deduplication engine design
- Commvault HyperScale™
- Snapshot implementation
- Virtual Server Agent configuration from the ground up
- Performance. Emphasis is placed on VM protection, particularly for protecting virtualized applications including Microsoft Exchange, SQL and SharePoint.

## Highlights

### Delivery Methods

- Instructor-led (Available in some EMEA countries) • Virtual Instructor-led

### Duration

- Three-day Instructor and Virtual Instructor-led

## Audience

This course is intended for experienced administrators and engineers looking to elevate their knowledge in CommCell® design strategies focusing on storage design and cloud computing, Deduplication, Commvault HyperScale™, virtual data protection, and application protection.

## Test and Certification

Completion of this course helps you prepare for the Commvault Engineer – CommCell Console Exam Certification. The Commvault Certified Engineer – CommCell Console is included free of charge as a part of the Commvault Engineer – CommCell Console instructor and virtual instructor-led course registration. To achieve Commvault Engineer – CommCell Console Certification you must first complete the Commvault Professional Certification.
