Introduction to Juniper Mist AI (IJMA)

CODE: JUN_IJMA **LENGTH:** 16 Hours (2 days) **PRICE:** £1,650.00

Description

This two-day Juniper Mist™ cloud training course provides network engineers and architects who use Juniper Mist cloud the knowledge to build, manage, and maintain their wireless, wired, and WAN networks from anywhere. Key topics include APIs, Marvis® Virtual Network Assistant, location-based services, cloud services, as well as monitoring and analysing the Juniper Mist cloud platform. It involves teaching the students APIs, Marvis, location-based services, cloud services, as well as monitoring and analysing the Mist Cloud platform. Students can connect to Juniper Mist cloud by connecting to the closest Juniper server in the cloud with the appropriate port configuration based on their location.
