IBM Certified Solution Advisor – Spectrum Storage Software V6 Certification Workshop

CODE:	LENGTH:	PRICE:
U4SSSWV6	8 Hours (1 day)	£1,499.00

Description

This one day workshop is intended to support IBM Spectrum Storage Software Specialists wishing to validate their knowledge of IBM Spectrum Storage Software V6 with a view to undertaking the IBM Certified Solution Advisor – Spectrum Storage Software V6 Certification

C1000-050

IBM Certified Solution Advisor – Spectrum Storage Software V6 Certification

<https://www.ibm.com/certify/exam?id=C1000-050>

Objectives

To provide delegates with an understanding of the certification requirements of IBM Certified Solution Advisor – Spectrum Storage Software V6 Certification C1000-050 IBM Certified Solution Advisor – Spectrum Storage Software V6 Certification
<https://www.ibm.com/certify/exam?id=C1000-050>

Audience

An IBM Certified Solution Advisor - Spectrum Storage Software V6 is a person who identifies opportunities and influences direction for IBM Spectrum Storage Software solutions within the customer environment and is responsible for educating and influencing key decision makers. This person develops high-level architectural solutions that are integrated with existing systems and aligned with business critical needs within a customer environment and is responsible for performing storage solutions analysis and communicating high-level design scenarios to the customer.

Prerequisites

- Knowledge of big data file systems (HDFS, IBM Spectrum Scale).
- Knowledge of block storage systems.
- Knowledge of object storage (S3 and Swift).
- Knowledge of storage data pipeline for AI.
- Experience with IT organization structures.
- Knowledge of IT storage standards (government and civil), regulations, and certifications (SNIA etc.).
- Skills with the aspects of network, storage, SAN hardware, SAN fundamentals and cloud.
- Knowledge of storage virtualization.
- Ability to create a business case justification for an IT project.
- Understanding of these key IBM Spectrum products and how they are offered:
 - IBM Spectrum Protect
 - IBM Spectrum Protect Plus
 - IBM Spectrum Control
 - IBM Storage Insights
 - IBM Copy Services Manager
 - IBM Spectrum Scale/ESS
 - IBM Spectrum Virtualize
 - IBM Spectrum Archive
 - IBM Spectrum Accelerate
 - IBM Cloud Object Storage
 - IBM Spectrum Copy Data Management
 - IBM Spectrum Discover

Programme

Customer Requirements and Infrastructure - 100%

Determine the customer's tactical and strategic business goals

Gather information regarding the existing storage environment.

IBM Spectrum Product Capabilities

Identify the strategic and tactical goals for key infrastructure technologies

Identify the key capabilities of IBM Spectrum Protect

Identify the key capabilities of IBM Spectrum Control

Identify the key capabilities of IBM Storage Insights

Identify the key capabilities of IBM Copy Services Manager

Identify key capabilities of IBM Spectrum Scale

Identify the key capabilities of IBM Spectrum Virtualize

Identify the key capabilities of IBM Spectrum Archive

Identify the key capabilities of IBM Spectrum Accelerate

Identify key capabilities of IBM Cloud Object Storage

Identify the key capabilities of IBM Copy Data Management

Identify key capabilities of IBM Spectrum Discover

Identify the key capabilities of IBM Spectrum Protect Plus

IBM Storage Software Defined Value Propositions

Explain the value proposition of IBM Software Defined Storage Infrastructure.

Describe the value of the IBM Spectrum family to a customer

Benefits and Use Cases for IBM Spectrum Storage Software

Explain the benefits and use cases for IBM Spectrum Protect

Describe the benefits and use cases for IBM Spectrum Control

Explain the benefits and use cases for IBM Storage Insights.

Explain the benefits and use cases for IBM Copy Services Manager

Explain the benefits and use cases for IBM Spectrum Scale

Explain the benefits and use cases for IBM Spectrum Virtualize

Explain the benefits and use cases for IBM Spectrum Archive

Explain the benefits and use cases for IBM Spectrum Accelerate

Explain the benefits and use cases for IBM Cloud Object Storage.

Explain the benefits and use cases for IBM Spectrum Copy Data Management

Explain the benefits and use cases for IBM Spectrum Discover

Explain the benefits and use cases for IBM Spectrum Protect Plus
