Introduction to IBM Spectrum Fusion

CODE:	LENGTH:	PRICE:
ZL1_SSFH1D	4 Hours	€140.00

Description

The foundations of the IBM Spectrum Fusion HCI (Hyper-converged Infrastructure) and SDS (Software-defined Storage) are covered in this course. It introduces students to IBM Spectrum Fusion, how to install the solution, configure it, and navigate the user interface.

The course delves deeper into how to use its data protection features, manage events, log collection, and how to use its graphical user interface.

There are demos to show these concepts in action.

This course earns you the IBM Spectrum Fusion Technical Essentials badge: <https://www.credly.com/org/ibm/badge/ibm-spectrum-fusion-essentials>.

Objectives

- Provide an overview of IBM Spectrum Fusion
- Identify the requirements for setting up IBM Spectrum Fusion
- Summarize how hardware resources on IBM Spectrum Fusion HCI are managed
- Describe encryption for storage
- Describe data protection
- Understand how to manage Call Home
- Understand how to manage Events
- Describe the process of monitoring and log collection
- Explain the IBM Spectrum Fusion user interface
- List the changes in IBM Spectrum Fusion 2.3

Audience

- Anyone interested in the subject matter.

Programme

- Unit 1: IBM Spectrum Fusion Overview
- Unit 2: Setting Up IBM Spectrum Fusion
- Unit 3: Managing Hardware Resources on IBM Spectrum Fusion HCI
- Unit 4: Encryption for Storage
- Unit 5: Data Protection
- Unit 6: Managing Call Home
- Unit 7: Managing Events
- Unit 8: Monitoring and Log Collection
- Unit 9: Understanding the IBM Spectrum Fusion HCI User Interface
- Unit 10: What's new in IBM Spectrum Fusion

Session Dates

Date	Location	Time Zone	Language	Type	Guaranteed	PRICE
18 Jul 2024			English	Web based Training		€155.00

Additional Information

This training is also available as onsite training. [Please contact us to find out more.](#)
