IBM Tivoli Monitoring 6.3 Fundamentals

CODE:	LENGTH:	PRICE:
ZL1_TOS57	24 Hours (3 days)	€1,125.00

Description

IBM Tivoli Monitoring products monitor the performance and availability of operating systems and applications. Learn about the Tivoli Monitoring architecture and how to navigate the Tivoli Enterprise Portal. This course also explains how to manage situation events, visualize real-time and historical data, manage user authorities, and publish monitoring workspaces. It also teaches you to use Tivoli Monitoring tools to effectively manage their enterprise monitoring. This course is designed for users and administrators of all Tivoli Monitoring products that use the Tivoli Enterprise Portal as the user interface.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.
