IBM Data Topology

CODE:	LENGTH:	PRICE:
ZL1_W7120	5.52 Hours (0.69 days)	€195.00

Description

Every business and organization is facing new challenges with their data. Pressures related to regulation and compliance, leveraging AI, spanning multicloud environments, and increasing volumes of inaccessible data are forcing executives and administrators to either modernize their infrastructures or become obsolete. But moving to the latest technology in a monolithic architecture is a tempting solution that can be expensive and cause more problems than it solves. In this course, you learn how to meet the needs of all your data consumers through the construction of a modern logical topology that helps you optimize data flow.

Objectives

IBM DataFirst Data Topology

Audience

Anyone

Prerequisites

None

Programme

IBM DataFirst Data Topology

- Describe the purpose and value of a data topology with data flow architecture
- Explain the process of creating a data-centric topology that meets individuals needs
- Apply Data Topology techniques to simplify example objectives

Session Dates

On request. Please Contact Us

Additional Information

This training is also available as onsite training. Please contact us to find out more.
