Commvault Engineer – CommCell Console

CODE: **LENGTH:** **PRICE:**
COM_AID 24 Hours (3 days) €2,160.00

Description

Elevate your knowledge of Commvault® software and maximize your organization’s investment by learning and applying infrastructure design concepts in your environment. The Advanced Infrastructure Design course focuses on a deeper understanding of CommCell® design, storage configuration, and application protection in a virtual infrastructure. This course is structured as a design and implementation project where Commvault best practices are applied to prepare the participant to optimally plan for CommServe® placement, MediaAgent scaling, deduplication engine design, snapshot implementation, and Virtual Server Agent configuration from the ground up. Emphasis is placed on VM protection, particularly for protecting virtualized applications including Microsoft Exchange, SQL and SharePoint.

This course is available as a 3-day Virtual Instructor-Led or Instructor-Led training. On-site courses are also possible for a minimum number of 6 students. Call for information: +31 (0) 88 0242900
