EMEA - Advanced Infrastructure Design (V11)

CODE:	LENGTH:	PRICE:
COM_AID	24 Hours (3 days)	€2,160.00

Description

Elevate your knowledge of Commvault® software and maximize your organization's investment by learning and applying infrastructure design concepts in your environment. The Advanced Infrastructure Design course focuses on a deeper understanding of CommCell® design, storage configuration, and application protection in a virtual infrastructure. This course is structured as a design and implementation project where Commvault best practices are applied to prepare the participant to optimally plan for CommServe® placement, MediaAgent scaling, deduplication engine design, snapshot implementation, and Virtual Server Agent configuration from the ground up. Emphasis is placed on VM protection, particularly for protecting virtualized applications including Microsoft Exchange, SQL and SharePoint.

This course is available as a 3-day Virtual Instructor-Led or Instructor-Led training. On-site courses are alo possoble form a minimum number of 6 students. Call for information: +31 (0) 88 0242900

Audience

It is required to have attended either:
• Version 10 Core Fundamentals and Implementation and Maintenance courses along with the V11 New Features course or
• Version 11 Core Fundamentals and Implementation and Maintenance course.

Programme

• Module 1: CommCell® Environment Design
CommCell design
CommServe® design
MediaAgent scaling
Indexing scaling

• Module 2: Storage Design
Storage infrastructure design
GridStor® technology
SAN Data Server
Cloud computing and storage
Deduplication design
Storage Policy design

• Module 3: Virtualization
Virtualization primer
Virtual Server Agent backup process
Virtual Server Agent roles
Transport modes
Virtual Server Agent configuration

• Module 4: IntelliSnap® Technology
IntelliSnap technology overview
Hardware snapshot methods
IntelliSnap for VSA
IntelliSnap configuration

• Module 5: Application Protection
Application protection overview
Agent based protection
VSA application aware backup
IntelliSnap for VSA
Additional application protection methods

• Module 6: Performance
Performance overview
Meeting backup windows
Meeting media management requirements
Meeting restore requirements
Assessing data protection methods
Assessing Commvault® product features
Assessing Commvault software options and configurations
