ONTAP Performance Administration

CÓDIGO:	DURACIÓN:	Precio:
NEP_OT-PERFADM	24 Hours (3 días)	€2,850.00

Description

Learn how to collect and analyze system performance data from NetApp® storage systems that run NetApp ONTAP® 9 software. You learn how to interpret data and how to identify and implement changes that improve system efficiency. You also learn how to use system commands and features to monitor and enhance storage system performance. You learn from hands-on exercises, case studies, and technical discussions.

Objetivos

This course focuses on enabling you to do the following:

• Describe how to use NetApp tools for performance measurement
• Describe the layers within the ONTAP architecture
• Diagram the flow of read and write requests through the network and data layers of ONTAP software
• Discuss how storage quality of service (QoS) operates in an ONTAP cluster
• Explain how to monitor and manage workload performance
• Use the performance analysis tools to identify NAS and SAN performance obstacles

Público

Administrators & Architects

Programa

Module 1: NetApp Storage System Architecture
• FAS/AFF system architecture
• Read and write paths
Module 2: Performance Analysis Fundamentals
• Performance concepts
• Workloads
Module 3: Performance Analysis Tools
• Performance analysis tools
• Using Active IQ Unified Manager
Module 4: Network Layer
• Identifying network performance issues
• Resolving network I/O performance issues
Module 5: NAS Protocols
• Network Attached Storage
• Identifying NAS performance issues
• Resolving NAS performance issues
• Network I/O bottlenecks
Module 6: SAN Protocols
• SAN overview
• SAN multipathing
• SAN load balancing
• SAN I/O misalignment
• Queue depth
Module 7:WAFL Layer
• WAFL functions
• WAFL readahead

• Resolving WAFL performance issues
Module 8: Storage Layer
• Storage subsystem hardware
• Identifying storage performance issues
• Identifying storage performance issues
Module 9: Cache Subsystem
• Cache subsystems
• Flash Cache
• Flash Pool
• Cache policies
• Cache sizing
Module 10: Storage Quality of Service
• Managing System Performance with QoS
• Monitoring storage QoS
• Performance service levels
Module 11: CPU and Memory
• CPU subsystem
• Memory subsystem
• Resolving WAFL performance issues
Module 12: External Resources
• Virus Scanning
• File access policies

Fechas Programadas

A petición. Gracias por contactarnos.

Información Adicional

Esta formación también está disponible en modalidad presencial. Por favor contáctenos para más información.
