Core DDI Advanced Troubleshooting

CÓDIGO:	DURACIÓN:	Precio:
INB_EDU_CDAT	16 Hours (2 días)	€1,000.00

Description

Understand the Infoblox support process and tools available to assist your Core DDI troubleshooting efforts. Learn to build and trouble shoot high availability (HA) pairs and Grids. Study common root cause analysis and resolution strategies and techniques for network connectivity and DNS and DHCP issues. Use a case-study approach to apply your learnings to real-life failure scenarios and recovery methods.

Público

This is an advanced-level course for team members who provide day-to-day management, operations, and technical support of the Infoblox DDI product.

Requisitos Previos

Attendees should have completed their Core DDI Basic Configuration (CDBC) and Core DDI Intermediate Configuration (CDIC) courses and accreditations and have at least six months experience supporting Infoblox Core DDI products.
