IBM Tivoli Monitoring 6.3 Advanced Administration

CÓDIGO:	DURACIÓN:	Precio:
TM063G	16 Hours (2 días)	€1,100.00

Description

This two-day course teaches the skills necessary to administer IBM Tivoli Monitoring and the Tivoli Enterprise Portal. The Tivoli Enterprise Portal is used by IBM Tivoli Monitoring, IBM Tivoli Composite Application Manager, and OMEGAMON XE and DE to manage your enterprise environment. In this course you learn about creating queries, links, situations (enterprise and private), autonomous agents, policies, agentless monitoring, and event integration with Netcool/OMNIBus and Tivoli Enterprise Console. This training class is provided in a classroom environment with multiple opportunities for hands-on lab practice. The scenarios used in this class are based on IBM Tivoli Monitoring version 6.3.

Objetivos

- Create and manage queries to access data
- Construct links for easy portal navigation
- Build enterprise situation events
- Configure and manage agents running in autonomous mode
- Create and manage workflow automation with policies
- Create agentless monitoring
- Use Agent Management Services
- Integrate events with Netcool/OMNIBus
- Use commands effectively

Público

This intermediate-level course is for Tivoli administrators, technical support personnel, and IT services specialists who are responsible for implementing and administering IBM Tivoli Monitoring.
