RecoverPoint Management

CÓDIGO:	DURACIÓN:	Precio:
EMC_MR-9CN-NSRPOM	24 Hours (3 días)	€2,307.00

Description

The RecoverPoint Management course is designed for anyone who is responsible for the administration and management of a RecoverPoint environment. This course focuses on leveraging RecoverPoint technology to achieve and maintain application Recovery Point Objectives (RPO) and Recovery Time Objectives (RTO).
An integral part of the training addresses product architecture, management, and operations of RecoverPoint. There will be extensive lab demonstrations and lecture which will cover the following concepts: configuration requirements, The methods of Replication; The configuration of consistency groups and distributed consistency groups; How to configure them for integration with different virtualization software; and Finally, the course addresses general monitoring and troubleshooting of RecoverPoint events.

Objetivos

Upon successful completion of this course, participants should be able to:

- Describe the RecoverPoint System, Options, Components and Requirements
- Explain the concept of a RecoverPoint Consistency Group and RecoverPoint Data Flow
- Describe the RecoverPoint management options and Installation tools
- Describe the factors to consider when planning RecoverPoint Replication
- Create and manage Consistency Groups using Unisphere for RecoverPoint
- Perform data protection tasks available with Unisphere for RecoverPoint
- Describe the steps required to use the System Analysis Tools forRecoverPoint

Público

This course is intended for any learners who intend to manage a RecoverPoint solution.

Requisitos Previos

To understand the content and successfully complete this course, a student must have a suitable knowledgebase/skill set. The student must have an understanding of:

- Storage networking infrastructures and concepts
- Fundament Knowledge of the RecoverPoint Product

Programa

The content of this course is designed to support the course objectives.
Module: RecoverPoint Concepts

- RecoverPoint Overview
- RecoverPoint System Architecture
- RecoverPoint Constructs
- RecoverPoint Data Flow
- RecoverPoint Management Options

Module: RecoverPoint Management

- RecoverPoint Administration Tasks
- Replication Planning

- Consistency Group Management
- XtremIO Consistency Groups Settings
- MetroPoint Consistency Groups
- RecoverPoint Integration

Module: RecoverPoint Operations

- Working with Images
- Recovery Operations
- Modifying Consistency Groups
- Module: RecoverPoint Systems Analysis
- RecoverPoint Systems Analysis Tools
- Gathering RecoverPoint Information in the CLI
- RecoverPoint for VNX Integration

Fechas Programadas

A petición. Gracias por contactarnos.

Información Adicional

Esta formación también está disponible en modalidad presencial. Por favor contáctenos para más información.
