# IBM Planning Analytics: Administer the Technical Environment - Local

<b>CÓDIGO:</b>	<b>DURACIÓN:</b>	<b>Precio:</b>
K05003G	8 Hours	€260.00

## Description

This course provides Administrators with guidance on installing and administering the IBM Planning Analytics - Local environment. The course outlines how the architecture can be customized to fit into various infrastructures. Students will learn how to install and configure IBM Planning Analytics - Local, monitor system performance, and secure applications.

**Note:** Guided eLearning is a self-paced offering which includes web-based content for self-study and videos (including audio) that demonstrate activities.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>

## Objetivos

Please refer to course overview

## Público

Administrators

## Requisitos Previos

Basic knowledge of IBM Planning Analytics

## Programa

- Installing IBM Planning Analytics Local
- Configuring IBM Planning Analytics Local
- Examining the architecture of IBM Planning Analytics Local
- Administering servers with the TM1 Operations Console
- Monitoring TM1 servers in the TM1 Operations Console
- Working with TM1 log files
