Commvault Core Fundamentals

CODE:	LENGTH:	PRICE:
COM_CF	24 Hours (3 days)	€2,160.00

Description

Discover the essential concepts, details, and best practices for user security and management, media and library management, policy configuration and retention, as well as job activity and status monitoring. This 3-day course provides an efficient and effective way to manage data movement, such as backup, archive, auxiliary copy, and restore, within a CommCell® group. Achieve a core understanding of Commvault's data and information management system and learn about the new feature enhancements to the next generation of Commvault® software.

Audience

This course is intended for personnel responsible for day-to-day administration and management of Commvault software.

Prerequisites

It is recommended that you watch the Welcome to Commvault® e-Learning course. This course is included at no additional cost, as a part of the Core Fundamentals registration, and is recommended to be completed prior to attending the Core Fundamentals course. Help Desk Operator eLearning course must be completed before attending the Core Fundamentals course.
