# **Trend Micro Deep Security 20 Training for Certified Professionals v2 – Update course**

CODE: LENGTH: PRICE:

TRM DS-20-UC 8 Hours (1 day) €950.00

#### **Description**

This is a one-day, instructor-led training course aimed at participants who have already previously followed a full 3 days training in the past of Deep Secirity 12 and who still hold a valid Certified professional certification (valid 2 years). This one-day update training covers all new product features and training material that came in addition to version 11 over the last 2 years.

This course is based on Deep Security 20 Training material

This course is taught by Trend Micro-certified trainers.

#### **Audience**

This course is designed for and only available to IT professionals who have already been certified on Deep Security within the last 2 years

#### **Programme**

The course topics in this 1 day training are divided into the following lessons:

#### **Trend Micro Deep Security 20 Overview**

- · Deep Security Smart Check
- Deep Security Analyzer
- Threat Detection

#### **Deep Security Manager**
