Panorama: Manage Multiple Firewalls

CODE:	LENGTH:	PRICE:
PAN_EDU-221	16 Hours (2 days)	€1,500.00

Description

The Palo Alto Networks® Panorama 8.0:
Manage Multiple Firewalls (EDU-221) course is two days of instructor-led training that will enable you to:

- Configure and manage the next-generation Panorama™ management server
- Gain experience configuring templates and device groups
- Gain experience with administration, log collection, and logging and reporting
- Gain experience with Panorama™ High Availability

Tämä kurssi toteutetaan yhteistyössä Exclusive Networksin kanssa.

Objectives

Students attending this course will gain in-depth knowledge of how to configure and manage their Palo Alto Networks® Panorama® management server. Upon completion of this course, administrators will understand the Panorama™ management server's role in managing and securing their overall network. Network professionals will learn to use Panorama™ aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks® next-generation firewalls

Audience

Security Administrators, Security Analysts, Network Professionals, Security Engineers, Network Engineers, and Support Staff

Prerequisites

Students must complete the Firewall 8.0 Essentials: Configuration and Management (EDU-210) class, have an understanding of Palo Alto next-generation firewall management, and understand basic networking concepts, including routing and IP addressing.

Programme

Module 1: Overview
Module 2: Initial Configuration
Module 3: Templates
Module 4: Device Groups
Module 5: Administration
Module 6: Distributed Log Collection
Module 7: Logging and Reporting
Module 8: Panorama High Availability
